A 2-DAY QUANTITATIVE DATA MANAGEMENT TRAINING WORKSHOP FOR THE EARLY CAREER RESEARCHERS

The University of Ibadan Research Management Office, as one of its core mandates, organised a 2-day quantitative data management training workshop for early-career researchers. The participants were selected from academic units including faculties, institutes and library in the University of Ibadan.

A total number of twenty early-career researchers from sixteen faculties, two institutes and the Business School participated in the training workshop which took place on Tuesday 27 and Wednesday 28 May 2025 at the NCC Digital Park, along Zoology-Technology Road, University of Ibadan.

The workshop was declared open by the Director, Research Management Office, Professor Ayodele Jegede who implored the participants to see their nomination to participate in the workshop as a great opportunity which should be fully appreciated by responding actively to learning.

The training workshop was on quantitative data management, the Director announced that the qualitative data management training would soon be organised for the academic units which mainly use qualitative data in their researches. Research Management Office is highly committed to building the capacity of researchers, especially those at their early career stage.

UI-RESEARCH NEWS

&

UPCOMING EVENTS

The Resource Person was Professor J. O. Akinyemi from the Department of Epidemiology and Medical Statistics, Faculty of Public Health, University of Ibadan. The 2-day training workshop was interactive, participatory and hands-on with such practical activities as exercises, assignments and do-it-yourself. The workshop was a bundle of success as the trainees' attendance was 100 per cent and participation was excellently active.

SN	ACTIVITY	DATE
1	Journal Editors Training Workshop	Monday 23 and Tuesday 24 June 2025
2	Qualitative Data Management Workshop	Wednesday 25 and Thursday 26 June, 2025
3	Ethics Committee Training	Tuesday 1 st and Wednesday 2 nd July, 2025
4	Mentorship Workshop	Tuesday 15 and Wednesday 16 July, 2025

University of Ibadan

Research Management Office

is inviting you to a day

Academic Journals Workshop

Topic:
On Standards, quality and visibility of academic journals in the University of Ibadan system: A workshop for editors

Presentations:

- Mapping UI Journals: The Challenges and the treasures
- Indexing and visibility of academic journals: Basic requirements and practice

Resource Persons:
Prof. A. Raji-Oyelade
Mr David Oyejide

Date: Monday, 23 June 2025
Time: 9:00 am - 4:00 pm
Venue: Digital Park, Zoo-Tech Road, UI

Host:
Deputy Vice-Chancellor, Research, Innovation & Strategic Partnerships
Prof. Oluyemisi Bamgbose, SAN

Chief Host:
The Vice-Chancellor, University of Ibadan
Prof. K.O. Adebawale, mni, FAS, fspsp

UNIVERSITY OF IBADAN
RESEARCH MANAGEMENT OFFICE
TETFUND INSTITUTION-BASED RESEARCH
(IBR)

CALL FOR PROPOSALS / APPLICATION FOR YEAR
2025

This is to announce the 2025 Tertiary Education Trust Fund Institution -Based Research (TETFUND IBR) Call for Proposals.

ELIGIBILITY: All Academic staff are eligible to apply for this grant. Applications are expected to conform to TETFUND IBR guidelines: <https://tetfund.gov.ng/index.php/downloads/>

DURATION: The grant implementation should not exceed 24 Months.

BUDGET:

1. Humanities and Social Science related research: Four Million Naira (₦4,000,000.00) only
2. Science based research: Five Million Naira (5,000,000.00) only
3. Cross-cutting budget: This will be based on the focus of the research – Humanities and Sciences related or Science based.

THEMATIC AREAS

CATEGORY	THEMATIC AREAS
A. Humanities and Social Sciences	1. National Integration and National Security 2. Education and Training 3. Economic Development 4. Social Welfare 5. Population Studies
B. Science, Technology and Innovation	1. Agriculture and Food Security 2. Health and Social Welfare 3. Transport 4. Energy and Power 5. ICT & Telecommunications 6. Space Science
C. Cross Cutting Themes	1. Environment, Housing & Urban Development 2. Entrepreneurship & Wealth Creation 3. Resource Governance 4. Science and Technology Management

APPLICATION PROCEDURE

1. Application forms are available on the TETFund website: <https://tetfund.gov.ng/index.php/downloads/>
2. Application should show evidence of multidisciplinary collaboration and gender inclusiveness.
3. Application should show evidence of capacity building by involving early career researchers including postgraduate students.
4. Each research team can only submit one application.
5. Application should conform to the prescribed TETFund IBR guideline and should include:
 - Covering Letter
 - Completed Lead Researcher's Profile form
 - Completed and duly signed Annexure #1 form
 - A copy of the Research Proposal
 - 2-page CV of the Researchers/Investigators
 - Research Duration
 - Implementation Plan
 - Total Amount Required (Detailed Budget)

DEADLINE FOR SUBMISSION OF PROPOSALS:

The closing date is **Monday 30 June, 2025**

Kindly forward electronic copy of your completed forms as stated under application procedures on number five (5) to rmoui2010@gmail.com and copy jreewatwin@gmail.com. Three (3) bound copies must be submitted to the Research Management Office, located at the premises of the Pro-Chancellors' Lodge, Off Niger Road, University of Ibadan on or before Monday 30 June, 2025.

NOTE:

Thematic area, Department and Faculty must be boldly written on your covering letter and the proposal. Any application submitted after the deadline or does not follow the required format will not be processed.

For further information and assistance, kindly contact the Research Administrator in your respective faculty

Signed:

Prof. A.S. Jegede

Director, Research Management Office,

Tel: +2348055282418, E-mail: as.jegede@ui.edu.ng & rmoui2010@gmail.com

PREVENTION OF SPREAD OF COVID-19

The novel coronavirus (SARS-CoV-2) is a new strain of the virus that has not been previously identified in humans. SARS-CoV-2 is the virus that causes coronavirus disease (COVID-19). The Federal Ministry of Health, through the Nigeria Centre for Disease Control (NCDC), has activated a national Emergency Operations Centre at the highest level and is leading the national response. A National Rapid Response Team has been deployed to support affected State Governments with response activities.

- As at 1st of May 2020 there were 18 laboratories in NCDC's molecular laboratory network with the capacity to test for COVID-19 in Nigeria, more are still being added. These laboratories were sufficiently equipped with reagents and supplies for testing.
- On the 27th of April, President Muhammadu Buhari announced that there would be a phased and gradual easing of the lockdown in these locations. He added that, however, the following additional preventive measures would be enforced:
 - Mandatory use of non-medical face mask/covering for all persons while in public spaces. Use of medical latex hand gloves are prohibited
 - Mandatory provision of handwashing facilities/sanitizers and extensive temperature checks in all public spaces. Anyone with temperature above 38 degrees Celsius will not be allowed into public spaces and should be told to return home
 - Mandatory temperature checks in public spaces
 - Prohibition of interstate travel except for essential travels and services
 - Prohibition of gatherings of more than twenty (20) persons outside of a workplace
 - Prohibition of gatherings of more than twenty (20) persons at a funeral; all infection prevention and control measures and physical distancing of 2 metres must be adhered to
 - Controlled access to markets and locations of economic activities
 - Physical distancing of 2 metres between people in workplaces and other public spaces
- **HOW TO PROTECT YOURSELF**
- Members of the University Community should undertake simple measures to prevent the spread of the virus, by following these measures:
 - Wash your hands frequently with soap under running water for at least 20 seconds or use an alcohol-based sanitiser if water is not available
 - Cover your mouth and nose properly with a tissue paper when sneezing and/or coughing. Dispose of the tissue properly immediately after use. You may also cough into your elbow if a tissue is not available
 - Maintain at least 2 metres (6 feet) distance between yourself and anyone who is coughing or sneezing repeatedly
 - Maintain at least 2 metres (6 feet) distance with other people when in public places
 - Wear a non-medical face mask/covering when leaving the house
 - Avoid touching your eyes, nose and mouth with unwashed hands.
 - Ensure routine cleaning of high-contact areas such as toilets, door handles, telephones, light switches etc.
 - Consciously distance yourself at least two (2) meters to the next person. Stay 6 feet away, especially if the person around is coughing or sneezing.
 - Do not shake hands or hug any person.
 - Unnecessary visitors should not be allowed
 - An ill person should be asked to stay away from the office

SCHOLARSHIPS AND FELLOWSHIPS

Apply Now for the Fully-funded Graduate Teaching Fellowship in Sociology, Social Policy & Criminology (SSPC) 2025 at the University of Liverpool

Program Overview

The Department of Sociology, Social Policy and Criminology (SSPC) at the University of Liverpool invites applications for a fully funded Graduate Teaching Fellowship (GTF) commencing October 2025. This opportunity supports outstanding candidates pursuing a full-time PhD within the Department over a period of up to four years.

Eligibility and Research Areas

Applicants should hold a good first degree and/or a Master's in Sociology, Criminology, or a related discipline, including Social Research Methods. The proposed PhD research should align with the Department's broad research themes and clusters, which encompass various sociological and criminological issues. The Department encourages applicants to familiarize themselves with its research environment and current academic activities via its website before applying.

Fellowship Responsibilities

The successful candidate will:

Undertake small-group teaching and assessment marking, primarily on criminology and criminal justice modules, as well as modules linked to their research expertise.

Participate actively in the Department's vibrant and critically engaged research culture.

Receive in-house training and mentoring, so prior teaching experience is not required.

Duration and Funding

Duration: Full-time PhD registration for three years, with an additional one-year unfunded writing-up period.

Funding: The fellowship covers full UK tuition fees (currently £5,006 for full-time UK students) and a maintenance stipend at the UKRI level (£20,780 for 2025-26).

International Applicants: Welcomed but must meet UK visa requirements.

How to Apply

Applications must be submitted by **9am BST on 9 June 2025** to the School of Law and Social Justice's PGR Team via email: slsjpgr@liverpool.ac.uk.

Applicants should prepare and include the following:

Curriculum Vitae (CV)

Covering Letter

Two Academic References

Detailed PhD Research Proposal (guidelines available on the University website)

Note: Candidates are strongly advised to contact potential supervisors before applying to discuss their research proposals.

Application Process

Contact Supervisors: Identify and consult with prospective supervisors within SSPC to refine the research proposal.

Prepare Documents: Gather transcripts, degree certificates, personal statement, CV, and referee details. International applicants should also prepare passport and English language certificates.

Submit Application: Send the full application as instructed and await confirmation.

Shortlisted candidates will be invited for a virtual interview via Microsoft Teams in early July 2025.

Contact Information

For further inquiries, applicants may contact the Department's Director of Postgraduate Research:

Dr. Peter Campbell

Email: pcampbell@liverpool.ac.uk or [visit official webpage here](#)

This Graduate Teaching Fellowship offers a unique pathway for emerging scholars to pursue doctoral research while gaining valuable teaching experience within a leading UK research environment.

SCHOLARSHIPS AND FELLOWSHIPS

The African Research Universities Alliance (ARUA) PAID Early-Career Research Fellowship Program 2025: Up to 42 Positions with a Monthly Stipend of US\$2,000

The African Research Universities Alliance (ARUA), with support from the Mastercard Foundation and the Carnegie Corporation of New York, is launching this Early-Career Research Fellowship program. The initiative will fund up to forty-two (42) early-career researchers to conduct globally competitive research at the host and affiliated institutions of ARUA's thirteen (13) Centres of Excellence (CoEs). Each fellowship will last six months, between July 2025 and June 2026. A maximum of four fellows will be assigned to each CoE, with all positions filled by December 2025. At least 70% of the fellowships are reserved for female candidates, and applicants must be no older than 35 years at the time of application.

About the Fellowship

The program aims to enhance the capacity of early-career researchers at African universities by providing them with time away from teaching duties at their home institutions to collaborate with highly experienced and distinguished researchers at [ARUA Centres](#) of Excellence (CoEs). Each CoE is expected to host research fellows from countries other than its own.

About ARUA

The African Research Universities Alliance (ARUA) is a network of leading universities from different African countries with different historical backgrounds but with a common vision. This vision is to make African researchers and institutions globally competitive while contributing significantly to the generation of knowledge for the socio-economic transformation of the continent.

The network, right from inception, was intended to be different from any other regional university network in Africa. Underlying the approach was the conviction that they could leverage their resources effectively for additional resources from outside. ARUA is currently pursuing this vision through its thirteen (13) CoEs that vary across various science and non-science disciplines.

About the Mastercard Foundation

The [Mastercard](#) Foundation is a registered Canadian charity and one of the largest foundations in the world. It works with visionary organizations to advance education and financial inclusion to enable young people in Africa and Indigenous youth in Canada to access dignified and fulfilling work. Established in 2006 through the generosity of [Mastercard](#) when it became a public company, the Foundation is an

Established in 2006 through the generosity of Mastercard when it became a public company, the Foundation is an independent organization separate from the company, with offices in Toronto, Kigali, Accra, Nairobi, Kampala, Lagos, Dakar, and Addis Ababa. Its policies, operations, and program decisions are determined by the Foundation's Board of Directors and leadership.

About the Carnegie Corporation of New York

The Carnegie Corporation of New York is one of the United States of America's oldest grant-making foundations, established by Andrew Carnegie to promote the advancement and diffusion of knowledge and understanding. In keeping with this mandate, the Corporation's work focuses on the issues that Andrew Carnegie considered of paramount importance: international peace, the advancement of education and knowledge, and the strength of democracy. The Corporation supports four key program areas, including education, democracy, international peace and security, and higher education and research in Africa.

Background

ARUA has established thirteen (13) [Centres](#) of Excellence (CoEs) across various disciplines to support its vision. These CoEs reflect the current priority areas of ARUA, and they are expected to significantly enhance research and graduate training. Currently, the CoEs are organized as follows:

- Energy,
- Unemployment and Skills Development,
- Non-Communicable Diseases,
- Inequality Research,
- Notion of Identity in Africa,
- Migration and Mobility,
- Sustainable Food Systems,
- Urbanization and Habitable Cities, (ix) Climate and Development,
- Good Governance,
- Post-Conflict Societies,

Water, and Materials, Energy & Nanotechnology (MEN).

1. To support the activities of these [centres](#), ARUA is announcing a residential Early Career Research Fellowship that is expected to last for 6 months. During this period, prospective research fellows are expected to stay at the host or affiliated university of the respective CoE and conduct research related to their existing projects. Successful candidates are also expected to explore new lines of research with the approval of the Centre's Director.

SCHOLARSHIPS AND FELLOWSHIPS

ARUA views this Early Career Research Fellowship as critical to consolidating the progress made by the CoEs, which aligns with the main visions of the network as well as the institutions supporting the fellowship. ARUA, therefore, seeks to use this opportunity to enhance the relevance of postgraduate training for early-career researchers.

Roles and Responsibilities of the Research Fellow

The key roles and responsibilities of the research fellow are as follows:

Work with other researchers to undertake various relevant studies at the Centre under the guidance of an assigned mentor.

Write and publish a minimum of one (1) academic paper[1] (a jointly authored paper where the fellow is the first/lead author can be acceptable) in a high-impact journal (at least, indexed in Scopus or Web of Science), with an accompanying policy brief or blog post on the appropriate platforms of the respective host institution.

Deliver at least two (2) presentations and participate in technical workshops with fellow researchers and other stakeholders.

Assist in creating and bolstering new partnerships between the respective Centre of Excellence and other relevant bodies. Assist in disseminating research findings of the Centre

Selection Criteria

The selection of successful candidates will be conducted by the Director of the relevant ARUA Centre of Excellence to which the candidate applies, in consultation with the host institution's Deputy Vice-Chancellor. • Applications should be submitted via the online submission portal (<https://arua.org/early-career-research-fellowships-2025/>).

ARUA will continue to accept applications for the 42 positions until they are all filled, with a deadline of December 2025. However, candidates who apply before May 15, 2025, will be considered for the first batch of positions. Successful candidates from this batch will be notified by June 1, 2025, and are expected to start their fellowships on July 1, 2025.

Fellowship selection is highly competitive and based, in the first instance, on excellence in the context of the applicant's academic standing, research experience, productivity, and output and, secondly, on the relevance and fit of research experience and proposed focus to the host CoE's research focus and objectives.

Contract and Remuneration

Successful candidates will be contracted by ARUA for 6 months. The research fellowship shall provide a monthly stipend of US\$2,000, modest payment for accommodation, and travel support (return ticket to host institution).

There are no relocation expenses. Additional financial support is available for eligible women who may require adjustment assistance (e.g., for childcare). The host CoE will provide the research fellow with office space.

TEAGASC PHD WALSH SCHOLARS OPPORTUNITY

“‘Emulsion-based formulations containing newly-discovered bacteriocin producers as probiotics for treating bovine mastitis.’

Walsh Scholars Ref Number 2025002

Background: Bovine mastitis is a common disease which affects dairy cattle and aside from causing discomfort and malaise in cows, it also results in financial losses for farmers due to costs associated with antibiotic treatment, discarded milk and potential culling after treatment failure. The disease occurs due to infections caused by bacteria such as *Staphylococcus aureus*, *Streptococcus agalactiae*, *Streptococcus uberis*, which results in inflammation of the infected quarter. Although antibiotic treatment has proven to be effective in many cases, recent trends in development of antibiotic resistance and treatment failure means that we must find alternative solutions to treat this disease. Recent field trials that we have conducted using emulsion-based formulations containing live cells of a safe food-grade bacterial strain, *Lactococcus lactis* DPC3147 have demonstrated varying degrees of cure rates for mastitis. Here, we aim to improve mastitis cure rates by evaluating a recently-discovered food-grade *Lactococcus raffinolactis* strain in such formulations. This strain produces an antimicrobial raffinocyclin, with potent activity against *S. aureus*. Furthermore, we aim to test another *lactis* strain which produces a separate antimicrobial with enhanced activity against the aforementioned pathogens. This project will contribute to answering scientific questions which may result in using these formulations instead of antibiotics.

Requirements: Applicants should have a 1H or 2H1 BSc degree in an appropriate discipline (Microbiology, Food Science or related disciplines). Although not a strict requirement, candidates with an MSc qualification and/or previous laboratory experience would have a distinct advantage. The successful candidate should be highly motivated with enthusiasm to develop technical skills across a range of disciplines. A minimum level of competency in English is required.

Please see the following link with regard to English Language requirements (<https://www.ucc.ie/en/study/comparison/english/>).

Award: This PhD Walsh Scholarship is a joint research project between Teagasc and University College Cork (UCC). The student will be registered at UCC, where the structured PhD programme is 4 years duration. As part of this structured PhD programme, the student will be required to enrol for a total of 15 credits of courses/modules during the 4 years, which will provide an opportunity for the student to become proficient in scientific writing, communication/presentation skills, biostatistics, amongst other such relevant modules.

The scholarship funding is €31,000 per annum and comprises of University fees of up to a maximum of €6,000 and flat rate stipend of €25,000 is tenable for 4 years.

Further Information: Dr Harsh Mathur (harsh.mathur@teagasc.ie) or Prof Paul Ross (paul.ross@ucc.ie). Application Procedure: Please submit an electronic copy of Curriculum Vitae to Dr Harsh Mathur (harsh.mathur@teagasc.ie)

Closing date: Friday 11th July at 5.00pm

SCHOLARSHIPS AND FELLOWSHIPS

Applications for the 2025 NGFP Fellowship are Now Open! (Open to Eligible Applicants Globally) Receive USD 1,000 Kick-Start Fund: Apply Now

The NGFP Fellowship is calling on the next generation of visionary leaders and emerging foresight practitioners. If you are passionate about shaping the future and eager to dive into the futures and foresight field, this is your opportunity.

Applications for the 2025 Fellowship are open, with a submission deadline of **23:59 GMT+1 on July 31, 2025**.

About the NGFP Fellowship: [The NGFP Fellowship](#) offers a unique and transformative journey for young professionals and emerging practitioners from around the globe. We aim to bring together individuals between the ages of 18 and 35 who are at the beginning stages of exploring futures and foresight, as well as those over 35 with less than one year of experience in the field. This fellowship is designed for people who are eager to learn, collaborate, and drive meaningful change.

Foresight is not about predicting the future; it is about understanding the present and the trends and factors that could shape the future. It's a systematic approach to engaging with uncertainty and exploring alternative futures, including aspirational ones. By utilizing foresight, individuals and organizations can build resilience, agility, and enhanced competitiveness, helping them to better respond to emerging threats and seize new opportunities.

Foresight practitioners use a futures-oriented approach to inform their work, examining long-term drivers of change and considering how different futures may evolve. This helps to generate insights that can guide decision-making in the present.

The Fellowship Opportunity: The NGFP Fellowship is a one-year journey designed to support emerging practitioners, foster collaboration, and provide opportunities for deep learning. Each fellow will receive a **USD 1,000 kick-start fund** to support their project and a chance to win a **USD 10,000 grand prize** at the end of the fellowship year for making significant progress and contributing to the wider NGFP community. The fellowship includes:

- **USD 1,000 project kick-start fund** to support the development of your foresight-related project.
- A platform to **connect with like-minded individuals** from across the globe who share your passion for futures and foresight.
- A **project partner**, typically an expert in the foresight field, to guide and mentor you throughout the fellowship.
- **Introductory training** in foresight, designed to help you build your skills and enhance your understanding of the field.
- **Bi-weekly updates** with news, opportunities, and resources, including information about grants and other funding opportunities for your **changemaking** projects.
- The chance to participate in **regional or thematic hubs** that focus on specific areas of futures and foresight.
- Access to **key events and projects** within the futures and foresight community.

- The opportunity to compete for the **USD 10,000 grand prize** at the end of the fellowship year based on your contributions and progress.

Who Should Apply?

- Young professionals between **18-35 years old**, or individuals over 35 with less than one year of experience in futures and foresight.
- Committed to **community-building** and interested in expanding your knowledge and network in the futures and foresight space.
- Working on a **bold, pioneering project** focused on lasting social, environmental, or systems-level change that could benefit from foresight.
- Life-long learners with a **long-term vision** for impact (10+ years ahead) who are passionate about addressing complex global challenges.
- Based anywhere in the world, with a particular emphasis on applications from **Asia, Africa, MENA (Middle East and North Africa), the Caribbean, Central and South America, the Pacific Islands, and the Balkans**.

NGFP Fellowship welcomes applications from individuals working on **Foresight Transformation Missions**—critical global issues that require foresight to solve, such as:

- Climate & Just Transitions
- Democracy & Sustainable Development
- Emerging Technologies
- Indigenous Futures & Futures Methods from Around the World
- Intergenerational Fairness
- Nuclear Security
- Peacebuilding

Why Apply? While the fellowship is competitive, with only **25 spaces** available each year, all top applicants will be invited to join the **NGFP Sensing Network**, a global community of over 900 foresight practitioners. As part of this network, you will have access to valuable resources, connections, and opportunities to further develop your foresight practice.

Regional Fellowships: In addition to the general fellowship opportunities, we also offer **regional fellowships**:

- **Balkans Fellowship:** In memory of our late colleague Sophie Middlemiss, we reserve one space for a fellow from the Balkans.
- **MENA Fellowship:** In partnership with the Dubai Future Foundation, we reserve two spaces for fellows from the Middle East and North Africa.

Application Timeline

- **May 1, 2025:** Applications open
- **July 31, 2025:** Applications close
- **August – October 2025:** Selection process
- **November 2025:** Fellows announced

FAQs and Terms & Conditions

SCHOLARSHIPS AND FELLOWSHIPS

Contracts for Innovation: Local Partnerships Clean Energy Demonstrators

Innovate UK, GB

The aim of this competition is to accelerate the innovations needed to create new or improved clean energy access in sub-Saharan Africa, South Asia, the Indo-Pacific region or South and Central America. To create a just and inclusive energy transition by integrating gender equality, disability and social inclusion to ensure we are extending the benefits of clean energy to all to meet sustainable development goals (SDGs) 7 and 13.

This funding is part of the Ayrton Fund. The activities supported by the project must be complete by 31 March 2027.

This is to contribute to:

- developing an innovative product, process, or service
- an inclusive and clean energy transition
- extend the benefits of clean energy to all
- meeting Sustainable Development Goals (SDGs) 7 and 13
- a just transition to ensure gender equality, disability and social inclusion (GEDSI)

Closing date 30 July 2025

Closing date note

- **Competition opens:** Monday 28 July 2025
- **Competition closes:** Wednesday 30 July 2025 11:00am

[Visit funder's web page for this opportunity](#)

Regular Grant Programme

World Cancer Research Fund (WCRF) International, INT

This supports research on the link between diet, nutrition, body composition, physical activity, and cancer prevention and survival.

Maximum award: £500,000

Closing date: 30 Oct 25 (Forecast)

Apply for the 2025 TWAS-ICCBS Postgraduate Fellowship Programme for Eligible Applicants from Developing Countries

[The TWAS-ICCBS Postgraduate Fellowship Programme](#) is a prestigious opportunity designed for young scientists from developing countries (excluding Pakistan) who are pursuing PhD research in chemical and biological sciences. Offered jointly by The World Academy of Sciences (TWAS) and the International Centre for Chemical and Biological Sciences (ICCBS) in Karachi, Pakistan, this fellowship supports scholars registered for PhD degrees in their home countries under a “sandwich” model.

Fellows benefit from advanced research training at ICCBS institutions—including the H.E.J. Research Institute of Chemistry and the Dr. Panjwani Center for Molecular and Drug Research—while working under the supervision of leading scientists in fields such as organic chemistry, molecular medicine, biotechnology, and pharmacology.

The fellowship aims to foster scientific capacity, collaboration, and innovation in the Global South.

TWAS-ICCBS Postgraduate Fellowship Programme Overview

The International Centre for Chemical and Biological Sciences (ICCBS) — comprising the H.E.J. Research Institute of Chemistry and the Dr. Panjwani Centre for Molecular and Drug Research in Karachi, Pakistan — and TWAS offer fellowships to young scientists from developing countries (excluding Pakistan) who wish to pursue research towards a PhD in chemical and biological sciences.

Key Details:

Application Period:

- Opens: 17 April 2025
- Closes: 14 August 2025 (midnight CEST)
- Duration: Minimum 6 months, maximum 12 months
- Level: PhD (Sandwich model – candidates must be enrolled in a PhD programme in their home country)-

Fields of Study:

- Agricultural Sciences
- Structural, Cell, and Molecular Biology
- Biological Systems and Organisms
- Medical and Health Sciences (incl. Neurosciences)
- Chemical Sciences
- Including: Organic chemistry, biochemistry, biotechnology, molecular medicine, pharmacology, physical chemistry, and analytical chemistry

SCHOLARSHIPS AND FELLOWSHIPS

Eligibility Criteria:

- Age under 36 by 31 December 2025 – Hold a Master's degree in a natural science
- Be a national of a developing country (excluding Pakistan)
- Be enrolled in a PhD programme in their home country
- Provide a certificate of good health
- Must not hold a visa for residency in Pakistan or any developed country
- Submit a "Registration and No Objection Certificate" from home university
- Submit an official Preliminary Acceptance Letter from ICCBS
- Provide proof of English proficiency (if not educated in English)
- Commit to returning home after fellowship completion
- Be financially responsible for accompanying family members
- Must not take up other assignments during the fellowship
- May only apply for one TWAS/OWSD programme per year

Preliminary Acceptance Letter:

Applicants must contact Prof. Dr. Raza Shah

(raza.shah@iccs.edu / protocol.iccbs@iccs.edu) with:

- Two-page CV Copy of last degree
- Research proposal outline
- Two recommendation letters

Acceptance letters are valid only if issued in the year of application.

Financial Support: ICCBS provides a monthly stipend for living expenses (not convertible to foreign currency). Instruction is in English.

Application Process:

- Apply via the [TWAS online portal](#).
- Applications without an acceptance letter by the deadline will not be considered
- Reference letters must be signed and on official letterhead
- Only complete applications submitted online will be accepted

[For more details & to apply visit official website here](#)

Innovation Awards for Climate-Smart Agriculture Partnerships: UK-Brazil-Africa

International consortia can apply for up to £100,000 for climate-smart agriculture for sustainable food production systems in Ghana or Nigeria.

A consortium of 3-4 international partners (one from UK, one from Brazil, one from Ghana or Nigeria, and optionally one more from any of those four countries) can apply for up to £100,000 for an Innovation

Award to accelerate the testing and/or development of technologies and/or practices that promote climate-smart agriculture for sustainable food production systems in Ghana or Nigeria.

Climate-Smart Agriculture Partnership: UK-Brazil-Africa is funded by the Foreign, Commonwealth and Development Office (FCDO) and delivered by Innovate UK. This brings together innovative people and organisations to promote climate-smart agriculture in Africa.

In this competition, up to £700,000 of total funding (up to £100,000 per project) is available for Innovation Awards.

These projects will start on the 1 August 2025. Projects must finish by the 28 February 2026.

What is an Innovation Award?

Projects should focus on exploring an innovation which will promote climate-smart agriculture approaches to address a challenge in food production systems in Ghana or Nigeria. Projects must demonstrate how their specified challenge will be overcome through a defined collaborative research/innovation project. All partners should be fully integrated into the project leadership. There should be equitable involvement in decision-making and setting the direction for the project, your team's approach to achieving this should be clearly defined within your project plan. This should be reflected within the project budget, with justified distribution of resources across partners and with no single partner dominating the resource allocation without clear justification.

Projects must demonstrate a compelling business-led motivation, a focus on identifying commercial opportunities and define a clear business-related challenge or evidence of demand for innovation. Projects can be innovative either from a commercial or technical perspective.

Projects could involve, for example, the transfer of a technology or practice from one country to another, the co-development of a new technology or practice, research into a new solution or knowledge-sharing from a research base into commercial organisations.

Applications must include a registered business (of any size) as one of the partner organisations. Applications must include at least 3 partners, with 1 partner from each geography i.e. UK, Brazil, Africa (Ghana or Nigeria). An additional fourth partner from any of the four countries is allowed. Consortia must include:

SCHOLARSHIPS AND FELLOWSHIPS

- a UK-registered organisation (who is also the Administrative Lead and will submit the application)
- a Brazil-registered organisation
- either a Nigerian or Ghana-registered organisation
- an additional fourth partner organisation from any of the four countries (UK, Brazil, Ghana, Nigeria) may be included, but is not required.

Water4All joint call

Water JPI, EU

The 2025 Joint Transnational Call will address the SRIA theme 4 “Water and health”, in particular the sub-themes:

- 4.3 on “Innovative water tools and technologies for water quality monitoring and water treatment, remediation and disinfection”
- 4.1 on “Behaviour and effects of contaminants of emerging concern, plastics, endocrine disruptors”.

Links to other SRIA themes will be explored, in particular to the sub-themes:

- 3.3. “Groundwater management” and to the cross-cutting themes on governance,
- 7.1 “Developing methods for more efficient citizen and wider stakeholder engagement” and 7.3 “Supporting the adoption of innovations”.

Closing date 13 November 2025 (Forecast)

Amended deadline Coming Soon. *** This opportunity will be available soon. The next call is expected to open in September 2025. The following information is subject to change. ***

Hubert H. Humphrey Fellowship Program 2026–2027

Are you a mid-career professional passionate about making an impact in your field and eager to develop your leadership in the United States? The prestigious **Hubert H. Humphrey Fellowship Program** for the academic year **2026–2027** is now open for applications from eligible citizens of multiple countries! This U.S. government-funded program brings accomplished professionals from around the world together to enhance their leadership and engage in professional collaboration in the U.S.

Let's dive into the full opportunity details.

Fellowship Benefits

The Humphrey Fellowship is a **fully funded, non-degree program** that includes:

Round-trip international travel

Full tuition and academic expenses

Monthly maintenance stipend

Health insurance coverage

Allowance for professional development activities

Funding for a **6-week professional affiliation** in a U.S.-based organization

Possible **Long-Term English (LTE) language training** for select candidates.

Fields of Study

Fellowships are offered across **four (04) core areas**, covering multiple subfields:

1# Human and Institutional Capacity

Economic Policy and Finance

- Public Policy Analysis and Public Administration
- Technology Policy and Management

SCHOLARSHIPS AND FELLOWSHIPS

- **2# Sustainable Lands**
- Agriculture and Rural Development
- Natural Resources and Environmental Policy
- Urban and Regional Planning
- **3# Thriving Communities**
- Public Health Policy and Management
- Substance Abuse Education and Policy
- Educational Administration, Planning, and Policy
- **4# Rights and Freedoms**
- Communications and Journalism
- Law and Human Rights.

Eligibility Criteria

To apply, you must meet the following criteria:

Undergraduate degree (Bachelor's or equivalent)

Minimum 5 years of full-time professional experience by June 2026

Demonstrated **leadership qualities** and commitment to public service

Proficient English skills (TOEFL recommended score: 71 iBT or 525 PBT)

Limited or no prior experience in the United States

Not a recent university graduate or academic without management responsibilities

Long-Term English training available for those with TOEFL scores of 42–61 iBT or 440–500 PBT.

Apply: <https://www.humphreyfellowship.org/how-to-apply/>

Call: <https://rs.usembassy.gov/hubert-h-humphrey-fellowship-program-competition-2026-2027/>.

Application Timeline

The application process for the Hubert H. Humphrey Fellowship Program 2026–2027 follows a structured schedule. All online applications must be submitted no later than **July 31, 2025**, while supporting documents sent by post must arrive by **July 25, 2025**. Shortlisted applicants will be invited for in-person interviews at the **U.S. Embassy in Belgrade in early September 2025**.

Final selections will be announced by the program's administrators in **February 2026**, and selected fellows will begin their fellowship experience in the **mid-to-late 2026 academic year** in the United States.

British Council 90th Anniversary Research Fellowships at the University of Edinburgh

We are delighted to be awarding two new 12-month Postdoctoral Fellowships, starting in January 2026, at the **Institute for Advanced Studies in the Humanities (IASH)** at the University of Edinburgh.

Applications are open to postdoctoral researchers based in any **ODA-recipient country** where the British Council operates (please see list at the bottom of this page).

Fellows will spend the first ten months of their Fellowships at IASH, followed by up to two months based in their home countries or regions focused on knowledge exchange and dissemination in collaboration with the British Council.

The Fellowship provides a bursary of £2,500 per month and travel expenses as well as desk space, library access and academic mentoring as part of the vibrant scholarly community of visiting fellows at IASH. Fellows will also be expected to engage closely with the British Council throughout their Fellowships, both in the UK and in their home country or region, as part of the knowledge exchange component of the Fellowship.

Subject focus and eligibility

These Fellowships are intended to support research that is aligned with the overarching vision of the British Council (“a more peaceful and prosperous world built on trust”) and the purpose outlined in [our strategy](#): We support peace and prosperity by building connections, understanding and trust between people in the UK and countries worldwide.

Applicants must be based in an ODA-recipient country where the British Council operates and be qualified to undertake postdoctoral level research for the Fellowship.

These are early-career fellowships, meaning applicants must be within seven years of completion of their PhD. We especially welcome applications from candidates who have not already had an undergraduate or postgraduate education in the UK or other non-ODA recipient country.

Research topics should be relevant to the areas of priority across **Arts, Education and the English language** that are outlined in our strategy, and to areas of cross-cutting strategic British Council interest such as **international relations** and **soft power, international development and peace building**, and **cultural relations and cultural diplomacy**.

SCHOLARSHIPS AND FELLOWSHIPS

Within this broad thematic remit, the specific research focus of each Fellowship can be shaped by the expertise and interests of the applicant. However, Fellowship proposals should include plans for outputs that are relevant to Official Development Assistance (ODA) policy or practice, and which have potential to advance knowledge or engage stakeholders or audiences in the Fellow's home country or region.

Objectives

In addition to proposing research and outputs in line with the above thematic remit, applicants should use the cover letter that is required as part of the application process (see below) to outline how their Fellowship would support the following British Council objectives for this programme:

- To generate new knowledge that builds on or complements British Council data, evidence, insight and expertise and supports British Council programming and strategy
- To diversify and broaden the British Council's knowledge base, including through providing opportunities for knowledge exchange with researchers from regions and communities under-represented in global research production and discourse
- To support the international capacity building and professional development of up-and-coming research experts from eligible countries
- To foster longer-term connections, networks and partnerships between UK and international researchers and British Council staff
- To promote the academic engagement and professional networking of British Council staff and partners
- To enhance the visibility, use and application of the data, evidence and other forms of knowledge and insight generated through the British Council's programmes and network
- To contribute more broadly to the UK research and skills agenda (including the UK Research and Development Roadmap and the Research England Knowledge Exchange Framework)
 - **Criteria for assessment**
 - Applications will be considered by an assessment panel comprised of University of Edinburgh and British Council staff. Assessment will take account of the extent to which candidates meet the following criteria:
 - A research and/or professional background and academic record that relates to broad remit of the programme, outlined above

- A research proposal with clear potential to support the British Council's objectives for the programme, outlined above
- Demonstrable experience of engaging non-academic audiences and stakeholders in research (e.g. through engagement with policy makers, practitioners, artists or other public audiences)
- A clear commitment to knowledge exchange and dissemination as part of the fellowship and beyond the timeframe of the fellowship itself, based on the networks, insights and learnings developed through their research

Q&A session

The British Council and IASH are holding an online Q&A webinar on Friday 23 May 2025 from 13:00 to 14:00 UK time on Zoom Webinar.

The session will be recorded. Prospective Fellowship applicants are encouraged to [register for this session](#) even if they cannot attend 'live' as this will give them access to the recording afterwards.

Application and fellowship timetable

Application window opens	April 29 at 10:00 UK time
Q&A webinar	May 23 at 13:00 UK time
Application deadline	July 28 at 23:59 UK time
Selection of candidates	By end of August 2025
Fellowships start date	January 2026
Fellowships are undertaken at IASH, University of Edinburgh	January - October 2026
Knowledge exchange and dissemination with British Council	November – December 2026

Further details and how to apply

Please [visit the IASH website](#) for full application guidelines, detailed eligibility criteria, and details of the Bursary and other support provided as part of the Fellowship.

Note: As requested above, please use the **cover letter** that is required as part of the application process to outline how their Fellowship will support the British Council's objectives for this programme.

SCHOLARSHIPS AND FELLOWSHIPS

Questions

Please contact Researchglobal@britishcouncil.org

Eligible countries

Albania, Algeria, Argentina, Armenia, Azerbaijan, Bangladesh, Bosnia and Herzegovina, Botswana, Brazil, Cambodia, Cameroon, China (People's Republic of), Colombia, Cuba, Egypt, Ethiopia, Georgia, Ghana, India, Indonesia, Iraq, Jamaica, Jordan, Kazakhstan, Kenya, Kosovo, Laos, Lebanon, Libya, Malawi, Malaysia, Mauritius, Mexico, Montenegro, Morocco, Mozambique, Myanmar, Namibia, Nepal, Nigeria, North Macedonia, Occupied Palestinian Territories, Pakistan, Peru, Philippines, Rwanda, Senegal, Serbia, Sierra Leone, South Africa, South Sudan, Sri Lanka, Sudan, Syria, Tanzania, Thailand, Tunisia, Türkiye, Uganda, Ukraine, Uzbekistan, Venezuela, Viet Nam, Yemen, Zambia and Zimbabwe.

Postdoc.Mobility Fellowship (Swiss National Science Foundation – SNSF)

Postdoc.Mobility Fellowship: The Swiss National Science Foundation (SNSF) invites applications for the **Postdoc.Mobility Fellowship**, a prestigious funding opportunity aimed at postdoctoral researchers seeking to enhance their scientific profile and independence through international research experience. The fellowship provides financial support for a 24-month research stay abroad, with an optional return grant to support reintegration into the Swiss research system.

Summary Table:

Position	Postdoc.Mobility Fellow
Organization	Swiss National Science Foundation (SNSF)
Location	Abroad (with return phase in Switzerland)
Funding Duration	24 months (fellowship), 3–12 months (return grant)
Application Deadlines	5 August 2025, 3 February 2026 (17:00 Swiss local time)
Application Platform	mySNF Online Portal
Contact Email	pm@snf.ch

Designation: Postdoctoral Fellow (Postdoc.Mobility)

Research Area: Open to all disciplines including but not limited to:

- Natural Sciences
- Medical Sciences (Human, Dental, Veterinary, Preventive Medicine)
- Social Sciences
- Humanities

Applicants must propose a research stay that enhances their expertise and contributes to their long-term academic career.

Location:

- Primary: Host institution abroad (to be selected by the applicant)
- Optional Return Phase: Research institution in Switzerland

Eligibility / Qualification:

- **Doctorate Status:**
 - Completed doctorate (PhD, MD-PhD), or to be completed within 9 months of the application deadline.
 - Medical researchers without MD-PhD: up to 8 years post state examination and at least 3 years clinical activity.
- **Time Limit After Doctorate:**
 - Application must be submitted within 3 years of doctoral exam/defense.
- **Nationality/Residency:**
 - Swiss citizens, permanent/temporary residents, cross-border commuters, or applicants in a registered partnership with a Swiss citizen.
 - Foreign nationals must have completed at least 2 years at a Swiss research institution.

Job Description:

- Conduct an independent, high-quality research project at an international institution.
- Gain in-depth academic knowledge, expand your research network, and strengthen your scientific independence.
- Optional: Apply for a **Return Grant** to support research in Switzerland after the international stay (salary + social contributions).
- Participate in SNSF-organized events to facilitate career development.

SCHOLARSHIPS AND FELLOWSHIPS

How to Apply:

1. **Register and apply via the mySNF platform:** <https://www.mysnf.ch>
(New users must request access **at least 5 working days** before the deadline.)
2. Follow the official [**Postdoc.Mobility Guidelines and Checklist (PDF)**].
3. **No confidential reference letters** required.
4. Resubmissions are treated equally as new applications; applicants are encouraged to revise previous proposals based on feedback (no explanation of revisions needed).
5. Attend the **online information event on 12 May 2025** for guidance.

Last Date to Apply:

- **First Deadline:** 5 August 2025 (17:00 Swiss local time)
- **Second Deadline:** 3 February 2026 (17:00 Swiss local time)

Fully Funded PhD Programs at University of Exeter, Exeter, England

Are you holding Master's degree and looking for fully funded PhD positions? University of Exeter, Exeter, England invites online application for multiple funded PhD Programs / fully funded PhD positions in various research areas.

Candidates interested in fully funded PhD positions can check the details and may apply as soon as possible. Interested and eligible applicants may submit their online application for PhD programs via the University's Online Application Portal.

1. Fully Funded PhD Position in Leveraging Genomic Technologies to Investigate the Molecular Basis of Sea Lice Resistance

Summary of PhD Program:

Sea lice increasingly threaten wild and farmed salmonid populations around the world, leading to substantial animal welfare concerns and economic losses. These ectoparasites feed on the skin of their fish hosts, causing physiological stress and increasing susceptibility to secondary infections.

The Atlantic Salmon aquaculture industry spends hundreds of millions of pounds (£) globally each year on treatments, yet costs are expected to continue rising due to climate change-driven increases in sea lice abundance and the ongoing evolution of resistance within sea lice populations to existing treatments. A shift from reactive treatments to proactive strategies—such as enhancing salmonids' innate immunity to sea lice—may offer a more sustainable solution. However, the mechanisms underlying sea lice resistance remain largely unknown.

Application Deadline: 20th June 2025

Apply now

2. Fully Funded PhD Position in Computational and ML Modelling of Low Temperature Plasmas

Summary of PhD Program:

The University of Exeter and Oxford Instruments Plasma Technologies are offering a jointly funded PhD position in computational and machine learning modelling of low temperature plasmas. Oxford Instruments (OI) develops and markets a range of manufacturing and scientific equipment using low temperature plasmas for etching and deposition. Plasma is a complex state of matter which can be considered as a fluid or as individual particles; moreover, complex chemical reactions can occur between species in the plasma. Modelling a plasma is accordingly a very complex and challenging task.

Application Deadline: 30th June 2025

Apply now

3. Fully Funded PhD Position in Submesoscales, stirring, and mixing in the southwest Atlantic, Ocean Science

Summary of PhD Program:

How do our oceans flow deep below the surface-layers? This PhD project is aimed at better understanding the generation and roll of sub-surface currents that span scales of tens of metres to tens of kilometers, otherwise known as submesoscale currents. Submesoscale flows matter because they provide a pathway to harness energy from the winds and tides, using it to stir and mix different water masses around the globe, along with the properties that they carry. However, these currents are profoundly under-sampled by observations and poorly represented in models. One global hotspot of submesoscale ocean activity is thought to be the Brazil-Malvinas Confluence (BMC) located off the coast of Argentina and Uruguay.

Application Deadline: 23rd June 2025

SCHOLARSHIPS AND FELLOWSHIPS

5. Fully Funded PhD Position in Generative AI: Effective Training and Inference of Generative Models

Summary of PhD Program:

Generative machine learning models have made significant progress in recent years. Typical examples include, for example, high-quality image or video generation using diffusion models (e.g., StableDiffusion) and large language models (LLMs) based on the transformer architecture [6] (e.g., ChatGPT). In general, the above generative models need considerable amount of computational resources in terms of GPUs and/or time in either training or inference procedures, which pose considerable challenges to both academia and industry for widespread access and deployment.

Application Deadline: 9th June 2025

Apply now

TWAS Postdoctoral Fellowship Programme

For young scientists from -NCP

developing countries (other than Pakistan) who wish to pursue postdoctoral research in physical sciences in departments and laboratories of the National Centre for Physics (NCP) in Islamabad.

Deadline: 31 July 2025

Partner Organizations: National Centre for Physics, Pakistan

Eligible nationalities: Developing countries in the South

Host countries: Pakistan

Level: Postdoc

Minimum degree held: PhD (in last 5 years)

Duration: Minimum of 6 months and a maximum of 12 months

Field: 07-Astronomy, Space and Earth Sciences 09-Physics

Age limit: None

Please use the “apply now” button at the bottom of this page to start your application once the call is open.

Opening date of this fellowship: 14 April 2025.

Closing date of this fellowship: 31 July 2025 (midnight CEST time).

SCHOLARSHIPS AND FELLOWSHIPS

Postdoctoral Fellowships at the National Institutes of Health

The National Institutes of Health, Maryland invites multiple online application for Postdoctoral Fellowships in various research areas. Candidates interested in Postdoctoral Fellowships can check the details and may apply as soon as possible.

1. Postdoctoral Position

Summary of Postdoctoral Fellowship:

We are particularly interested in applicants from any of the following backgrounds: (1) Gerontology, sociology, social psychology, or epidemiology to look at a broad range of social and environmental influences on aging. (2) Data Science/Machine Learning for analysis of large complex data sets and multi-dimensional predictive modeling of cognitive changes over time. (3) Genetics/Neurogenetics to analyze both candidate gene and whole genome analyses of a large genetic data base as related to neurodegenerative disorders, with an emphasis on genetics associated with African ancestry.

Application Deadline: Open Until Filled

More Details

2. Postdoctoral Position

Summary of Postdoctoral Fellowship:

The Washington University School of Medicine, Department of Neurology, has an opening for a post-doctoral research associate to join the Belloy lab in the NeuroGenomics and Informatics Center (NGI). The successful candidate will be involved in projects to perform big-data research, bundling genetics, multi-omics, biomarker, clinical, and histopathological data, to harness the full range of biologically relevant data to better understand Alzheimer's disease and related dementias.

Application Deadline: Open Until Filled

More Details

3. Postdoctoral Position

Summary of Postdoctoral Fellowship:

The Postdoctoral Fellow will perform work under the supervision of Dr. Bigos and will have access to exceptional resources to: 1) gain further training in brain imaging and pharmacology research design and execution; 2) explore complementary research contributions; and 3) gain valuable experience in publishing, grant-writing, and project management for the next stage of their research career. The primary responsibility of the Fellow will be to assist in the design of brain imaging studies, collection and analyses of brain imaging data, and to collaborate with the various members of the research team.

Application Deadline: Open Until Filled

More Details

4. Postdoctoral Position

Summary of Postdoctoral Fellowship:

We seek trainees who have a specific interest in midlife brain aging, its origins in early life, and its implications for mental and physical health in later life. The research training will be grounded in the ongoing longitudinal Dunedin Study, which has followed a population-representative birth cohort for six decades. We collected a first wave of MRI data in 875 Study members when they were 45 years old and are currently collecting a second wave of data as Study members turn 52 years old this year. We expect the second wave of data collection to be ready for analysis by fall semester 2025. This will lead to many opportunities to map individual life histories (e.g., childhood adversity, environmental exposures, history of mental illness) onto changes in midlife brain structure and, furthermore, to map these changes onto a number of health outcomes including risk for Alzheimer's disease and related dementias.

Application Deadline: Open Until Filled

More Details

5. Postdoctoral Position

Summary of Postdoctoral Fellowship:

The Research Postdoctoral Fellow is a "research trainee" for the purpose of enhancing and developing research competencies in laboratory or clinical research settings and may engage in any of the following activities. The research postdoctoral fellow will assist faculty in the conduct of research and reports to a principal investigator or CNRI Center Director. They may serve in several roles in the laboratory setting, depending on the scientific specialty and needs of the research project supported.

Application Deadline: Open Until Filled

More Details

6. Postdoctoral Position

Summary of Postdoctoral Fellowship:

The Haydar Lab is hiring a postdoctoral fellow to develop CAR T cell therapies for the treatment of brain tumors and interrogate the tumor microenvironment for identification of rational combination therapies. We use mouse models and novel engineering tools to design effective, long-lasting, and safe cellular immunotherapies for pediatric brain tumors.

Application Deadline: Open Until Filled

More Details

SCHOLARSHIPS AND FELLOWSHIPS

Fully Funded RIFS Fellows Program 2026 in Germany

RIFS Fellows Program 2026: The RIFS Fellows Program offers a unique opportunity for individuals from diverse sectors to engage in impactful research focused on sustainability transformation in Germany. This fully funded fellowship is ideal for those aiming to collaborate with leading researchers and contribute to significant projects.

Designation

Fellowship Program Participant at the Research Institute for Sustainability (RIFS)

Details	Information
Host Country	Germany
Host Institute	Research Institute for Sustainability (RIFS)
Program Duration	6 to 12 months (extendable up to 24 months)
Location	GFZ Helmholtz Centre for Geosciences, Potsdam
Stipend	Yes, based on experience and family Circumstances

Research Area

- Sustainability transformation across various sectors including science, public administration, private sector, civil society, media, and the arts.

Eligibility/Qualification

- Open to individuals worldwide from all fields.
- Scientific applicants must possess a PhD or equivalent experience.
- Non-academic applicants should have a minimum of 3-5 years relevant work experience.
- Proposed research must align with one of RIFS's three research themes.
- Applicants should select at least one research group within these themes.
 - Description
- The RIFS Fellows Program invites talented and motivated individuals to join a collaborative research environment aimed at fostering sustainability. Participants will have access to organizational and financial support, enabling them to carry out

their research effectively and develop international networks. The program promotes diversity and gender equality, ensuring that opportunities are available to all qualified candidates.

How to Apply

1. Complete the online application form.
2. Enter personal and contact information.
3. Upload required documents:
 - CV
 - Letter of motivation
 - Project proposal
 - Any additional supporting documents (e.g., publications list)
1. Confirm your understanding of the data protection terms.
2. Submit your application.

Last Date to Apply

June 9, 2025

This fellowship presents an exceptional chance for those keen on making contributions to sustainable practices and solutions globally.

[Link](#)

McKenzie Postdoctoral Fellowships, University of Melbourne, Australia

McKenzie Postdoctoral Fellowships: The University of Melbourne seeks outstanding early career researchers to apply for the McKenzie Postdoctoral Fellowships, which provides a significant opportunity for candidates to pursue concentrated research while contributing to the University's broader research objectives. These fellowships are designed for high-caliber scholars at the pivotal early career stage.

Designation: McKenzie Postdoctoral Fellow

Research Area: Open to all research fields of interest to the University and its faculties.

Location: University of Melbourne, Melbourne, Australia

Eligibility / Qualification

- Must have been awarded a PhD in any discipline from a recognized university by no earlier than **17 March 2022**.
- Applicants must be able to commence their fellowship by **30 June 2026**.
- Must not have previously held and completed a McKenzie, Mary Lugton, Puzey, or Melbourne Postdoctoral Fellowship.

SCHOLARSHIPS AND FELLOWSHIPS

DAAD Prime Fellowship 2025, Germany (with an initial research stay abroad)

DAAD Prime Fellowship 2025: The DAAD Prime Fellowship 2025 is a prestigious opportunity for postdoctoral researchers aiming to enhance their academic careers through international mobility. This program, funded by the Federal Ministry of Education and Research (BMBF), offers a unique platform for conducting research at renowned institutions in Germany and abroad.

Designation

Postdoctoral Research Fellow
Postdoctoral opportunities

Research Area

Various scientific fields eligible for postdoctoral research, as determined by host institutions in Germany and abroad.

Location

Germany (with an initial research stay abroad)

Eligibility/Qualification

- Applicants must be postdoctoral researchers with an excellent scientific record.
- A completed doctorate with outstanding results before the start of funding is mandatory.
- No restrictions on nationality or current residency, but applicants must adhere to mobility rules concerning the chosen research destination.
- Applicants must not have resided or worked in the chosen destination country for more than 12 months in the three years preceding the application deadline.
- Candidates must identify suitable host institutions in both Germany and abroad.

Job Description

- The fellowship provides an 18-month temporary employment contract at a German university.
- The first 12 months will be dedicated to conducting research abroad, with the last 6 months focused on reintegration into the German academic system.
- Fellows will receive a salary based on the German TV-L EG 13 pay scale, along with a monthly expatriate allowance during the research stay, adjusted according to area classification.
- Additional travel subsidies are available for postdoctoral scientists, including support for accompanying spouses and children.

How to Apply

Interested candidates must submit the following documents:

- Curriculum vitae
- Completed application form
- Career plan outlining how the PRIME funding will aid professional development
- A detailed research proposal coordinated with both German and foreign host institutions
- Time schedule for planned work
- Invitation letters from both the German and foreign host institutions
- Certificates of the most recent academic degrees
- List of publications with detailed information on contributions and importance
- Short summary of the doctoral thesis
- Completed ethics issues checklist
- Language certificates (if required for the research project)
- One confidential letter of recommendation from a university professor.

Doctor of Philosophy programs

Application must be submitted online.

Last Date for Apply

August 29, 2025

Become an Atlantic Fellow for Equity in Brain Health at GBHI

About the Fellowship

[Apply to fellowship](#)

Join a diverse community of over 260+ Atlantic Fellows from over 60 countries worldwide dedicated to protecting the world's aging populations from threats to brain health. The Atlantic Fellows for Equity in Brain Health program at the Global Brain Health Institute (GBHI) provides innovative training, networking, and support to emerging leaders focused on [improving brain health and reducing the impact of dementia](#) in their [local communities and on a global scale](#). It is one of seven global Atlantic Fellows programs to promote fairer, healthier, and more inclusive societies.

SCHOLARSHIPS AND FELLOWSHIPS

The program is for professionals from a wide range of disciplines, including the [arts](#), sciences, economics, policy, medicine, journalism, community-based practice and much more. Whatever the discipline, we are looking for individuals working in the area of brain health and dementia who have great ideas, enthusiasm and leadership potential.

Meet the 2024–25 Atlantic Fellows

Fellowship Highlights

1. Undertake a 12-month, full-time, paid fellowship based at GBHI at [Trinity College Dublin](#) (Trinity) in Ireland or [University of California, San Francisco](#) (UCSF) in the United States.
2. Connect with world-class [fellows](#), [faculty](#), and [staff](#) for career-long collaborations in research, clinical practice, and policymaking.
3. Embrace a [common program structure](#) enriched by the unique aspects and expertise of [our two sites](#).
4. Study an interdisciplinary [curriculum](#) of neurology, health economics, epidemiology, law and ethics, leadership, health policy, creativity, and research.
5. Foster [leadership](#) abilities through tailored development programs and hands-on skills training.
6. Observe and participate in [clinical cases](#) to gain practical insights.
7. Receive one-to-one [mentoring](#) on projects aimed at advancing brain health.
8. Apply for competitively awarded funds for [pilot projects](#).
9. Achieve academic distinction with the prestigious [Certificate in Equity in Brain Health](#) awarded by UCSF or Trinity.
10. Engage with a global community of [seven Atlantic Fellows programs](#) to promote fairer, healthier, and more inclusive societies.

11. Fellowship Sites

12. Atlantic Fellows at GBHI join the full-time, program for 12 months at either the UCSF or Trinity. Our two founding sites have formed a strong partnership based on shared values and vision. This values-based approach is what makes the collaboration successful—guiding each organization and unifying not only our goals but how we achieve them.

While the fellowship program at both sites is aligned in terms of core structure and content, it is largely delivered locally at each site, drawing on each site's core expertise and local and institutional ecosystem to deliver a rich and varied experience. There are also shared aspects, where fellows from both sites participate together, including online class sessions and workshops, as well as activities such as the GBHI Annual Conference. Applicants must select one site for the fellowship-year experience on the application.

Education and Training

Applicants from all disciplines and professional backgrounds are encouraged to apply. They should have a strong foundation of experience and expertise and be ready to advance meaningful and impactful work. Applicants should complete the highest degree and associated training they wish to obtain in their particular field. This includes but is not limited to competitive applicants who have:

- **Artists or other creative professionals:** A portfolio, an interest in improving the lives of people living with dementia and their care partners, a public platform to showcase their portfolio.
- **Physicians:** Completed an MD, residency and other fellowship specialties, have an interest in improving clinical practice.
- **Researchers:** Completed a PhD and postdoctoral training, have an interest in generating and distributing knowledge to advance the field of brain health and dementia prevention.
- **Innovators, entrepreneurs, policymakers, and other professionals:** Developed significant expertise in their field and track record of achievement.

Key Dates: Applications Close: September 19, 2025

SCHOLARSHIPS AND FELLOWSHIPS

Research Stay Scholarships 2025 by Max Planck for Senior Fellows, Postdocs, and PhD Applicants

Are you a researcher planning a research stay in Germany but concerned about funding? The Max Planck Institute (MPI) in Freiburg is currently accepting applications for its Research Stay Scholarship Program for 2025, offering financial support to help cover travel and accommodation costs for short-term visits. This is a great opportunity for international researchers at various career stages to immerse themselves in a vibrant scientific community and collaborate with experts at MPI.

Who Can Apply? The scholarship is open to:

Doctoral students from foreign institutions or from German institutions (if not working under MPI directors)

Postdoctoral researchers from foreign research institutions

Professors and experienced scientists from international institutions

Scholarship Benefits: The funding amount depends on the applicant's academic status:

Doctoral students: up to €1,365/month

Postdocs: up to €2,500/month

Professors and experienced researchers: up to €3,000/month

In exceptional cases, higher grants may be awarded based on special circumstances. Note that the Institute generally **does not reimburse travel costs**, and **proof of health insurance** is required for all recipients.

Duration of Stay: Scholarships are typically awarded for **2 to 4 months**, with a maximum duration of **6 months** for doctoral researchers.

Required Documents

To complete your application, submit the following:

Curriculum Vitae (CV)

List of publications (1–3 academic publications in German or English language)

Research project description (5–10 pages)

For doctoral students: A detailed research plan (~10 pages) if no publications

Copies of Diploma and doctoral degree certificates (if applicable).

Apply: <https://csl.mpg.de/en/fellowships>

Application Deadline The last date to apply for the MPI Research Stay Scholarship is **31 October 2025**.

PAGES African Mobility Fellowship Program

Deadline: 15 August 2025

Past Global Changes (PAGES) has announced the Inter-Africa Mobility Research Fellowship Program (African Mobility Fellowship) for African early-career scientists studying past global changes.

Why Hunt for Grants When You Can Win Them?

Upgrade to Premium Now.

The program aims to give limited support for travel and subsistence to early-career researchers from African countries (PhD students and postdocs at African institutions), who are interested in gaining experience in another African country. The final goal is to contribute to the development of collaborative research and the promotion of paleoscience network within Africa.

The program is intended to support costs associated with international travel and living expenses while abroad, i.e. flight (economy class), visa, costs of laboratory consumables (up to max. 10% of the total budget) and accommodation (subsistence and housing) costs for the period of the exchange, for the fellow only. Insurance will not be covered by the grant. PAGES cannot be deemed responsible if the candidate cannot travel for any reason (such as flight cancellation).

Logistics

Uncover Hidden Funding Gems – Elevate Your Impact with Premium!

Join now

- The fellowships will be awarded for a short duration, between two and four weeks. The fellowship must be used within 12 months (awardees will have up to 12 months to take up their fellowship once awarded).

Eligibility Criteria

They invite applications from outstanding early-career scientists from African countries. The applicants must fulfill the following conditions:

- Be an early-career researcher either in the final stage of completing their PhD thesis/dissertation, or a postdoctoral researcher within five years of completing their PhD (including PhD holders who have not held a postdoc position).
- Be either a student or hold a paid position in their home country at the time of the application, and during the fellowship period.
- Be a citizen of any African country and currently working or doing their PhD at an African institution.
- Already be working on a research topic within the scientific scope of PAGES.
- Be willing to conduct research in another African institution/country.
- Must secure the agreement of the host researcher/institution, and provide a confirmation letter from the host researcher/institution as a pre-condition for award of the fellowship.
- Demonstrate that fellowship will not last for less than two weeks or for more than four weeks within a 12-month period from the date of award.

For more information, visit [PAGES](https://pages-project.org/).

SCHOLARSHIPS AND FELLOWSHIPS

UN HUMAN RIGHTS COMMISSION FELLOWSHIP PROGRAMME 2025 FOR PEOPLE OF AFRICAN DESCENT (FULLY FUNDED TO GENEVA, SWITZERLAND)

Application Deadline: 30 June 2025

Applications are now open for the [2025 UN Human Rights Commission Fellowship Programme](#). The Fellowship programme for people of African descent is an **intensive human rights training** for people of African descent, from the diaspora, who are engaged in promoting the rights of people of African descent.

It takes place once a year at the Office of the High Commissioner for Human Rights (OHCHR) in Geneva. The aim is to strengthen participants' skills to contribute to the promotion and protection of civil, political, economic, social and cultural rights of people of African descent in their respective countries. The participants are equipped with the tools necessary to: ensure the development of legislation, policies and programmes aligns with international human rights standards; strengthen collaboration of civil society with governments; and undertake local awareness-raising and advocacy activities.

Eligibility Requirements

The candidate must be an individual of **African descent living in the Diaspora**.

The candidate must have a minimum of 4 years of work experience related to the rights of People of African Descent. The candidate should submit an official letter from an organization working on issues related to people of African descent or minority rights – on official letterhead – certifying the candidate's role within the organization.

The candidates must be available to attend the full duration of the programme. The selected fellows will be expected to participate in different activities and to strictly follow the programme.

Benefits

Each fellow is entitled to a return ticket (economy class) from the country of residence to Geneva; basic health insurance; and a stipend to cover modest accommodation and other living expenses for the duration of the Programme.

Fellowship Dates

The Fellowship will be held from **10 to 28 November 2025** in Geneva, Switzerland.

In addition, fellows are expected to dedicate a few hours to pre-online courses and preparatory assignments in the preceding two weeks.

How to Apply

Applicants are requested to submit the following documents in one single e-mail to ohchr-africandescentfellowship@un.org:

A Curriculum Vitae

A completed, signed and scanned [Application Form](#) in one single document.

A personal statement (maximum 500 words) in which the candidate will explain their motivation for applying, and how they will use the knowledge gained from the fellowship to promote the interests and rights of people of African descent. An official letter from an organisation working on issues related to people of African descent or minority rights – on official letterhead – certifying the candidate's role within the organization

A copy of the applicant's passport.

Please note that submissions with more than five attachments will not be accepted.

DAAD Helmut Schmidt Scholarships in Germany 2026 (Fully Funded)

The DAAD Helmut Schmidt Programme 2026, also known as the Master's Scholarships for Public Policy and Good Governance, offers an outstanding opportunity for students from developing and emerging countries to pursue fully funded Master's degrees in Germany. Funded by the German Federal Foreign Office, this prestigious program aims to train future leaders in disciplines vital to social, political, and economic development, preparing them for impactful roles in their home countries.

SCHOLARSHIPS AND FELLOWSHIPS

This highly competitive scholarship is designed for talented graduates committed to improving governance, civil society, and sustainable development. Scholars benefit from tailored academic training, exclusive seminars, and interdisciplinary networking opportunities throughout their studies. Courses are taught in English and hosted by top German universities specializing in governance and public policy.

Free online courses

With full financial support, access to world-class education, and a focus on leadership and practical experience, the DAAD Helmut Schmidt Scholarship 2026 is a gateway to academic excellence and global impact. If you are passionate about driving change and building strong institutions in your country, this scholarship is your chance to make a difference. *You can also apply for [MEXT Japan Government Scholarships 2026 \(Fully Funded\)](#)*

DAAD Helmut Schmidt Scholarship 2026 Details:

- **Host Country:** Germany
- **Funded By:** German Academic Exchange Service (DAAD)
- **Study Level:** Masters Degree
- **Financial Coverage:** Fully Funded
- **Eligibility:** International students

Benefits of DAAD Helmut Schmidt Programme in Germany 2026:

- Monthly stipend of €992
- Full tuition fee coverage
- Travel allowance to and from Germany
- Health insurance in Germany
- Rent subsidies and family supplements (if applicable)
- Study & research grant
- 4-month German language course in Germany (mandatory)
- Exclusive seminars and networking events during the program

Online education

Note: The “Social Protection” master’s course includes a blended learning format with a reduced stipend (€500/month) for the final online semester.

List of DAAD Helmut Schmidt Eligible Universities:

- Hochschule Bonn-Rhein-Sieg
- University of Duisburg-Essen
- University of Erfurt
- Otto Von Guericke University Magdeburg
- University of Applied Sciences Osnabruck
- University of Passau
- University of Potsdam

List of DAAD Helmut-Schmidt Programme Study Fields:

- Analysis and Design of Social Protection Systems

- Development and Governance
- Public Policy
- Peace and Conflict Studies (PACS)
- Management in Nonprofit Organisation
- Governance and Public Policy
- Development Studies
- Public Management (MPM)

Stanford University courses

Eligibility Criteria of DAAD Helmut Scholarship 2026:

- Bachelor’s degree with above-average grades (upper third)
- Graduation not earlier than January 1, 2019
- Relevant practical experience (internships, work, social or political engagement)
- Clear commitment to contributing to the development of home country
- English language proficiency (requirements vary by course)
- Applicants must not reside in a non-DAC country for more than 15 months before application.

Eligible Countries: All the Eligible candidates from the “Developing Countries” are highly encouraged to apply for the DAAD Helmut Schmidt Programme in Germany. Click Here to Check ([ELIGIBLE COUNTRIES](#))

Required Documents:

- Signed DAAD application form
- Letter of motivation (max. 2 pages for both courses)
- Europass CV (include date and explain any gaps)
- Bachelor’s degree certificate (with certified translation if necessary)
- Transcript of records (with grading scale explanation)
- Language certificate (e.g., TOEFL/IELTS)
- Proof of professional or social experience (with stamp and signature)
- Reference letter (from university or employer, signed & stamped)
- APS Certificate (for applicants from China)
- Checklist, signed and dated

Deadline: The application deadline to apply for the fully funded DAAD Helmut Schmidt Scholarship 2026 in Germany is 31st July 2025.

Check [Queen Elizabeth Commonwealth Scholarships 2025-26 \(Fully Funded\)](#)

How to Apply for the DAAD Helmut Schmidt Scholarship 2026?

- Choose up to two eligible master’s courses.
- Download and complete the DAAD Application Form and Checklist.
- Write one motivation letter for both course options.
- Submit the complete application package directly to the chosen universities, *not* to the DAAD.
- Do not upload documents to the DAAD portal unless nominated.

SCHOLARSHIPS AND FELLOWSHIPS

Call for Applications: 2025 USF's International Fellowships for Urban Scholars from the Global South

The **Urban Studies Foundation (USF)** is pleased to announce the launch of the **International Fellowships** for urban scholars from the [Global South](#). These fellowships provide an exceptional opportunity for early-to-mid-career researchers to further their academic careers through dedicated time for research, supported by mentorship from senior scholars in their field. The deadline for applications is **16th July 2025, 23:59 UTC+0**.

Purpose of the Fellowship

The USF's **International Fellowship** program aims to support scholars from the Global South by providing them the opportunity to complete significant research outputs, such as publishable articles, book chapters, or entire books. Each fellowship covers the costs associated with a sabbatical period spent at a host university of the applicant's choosing, with funding available for a period ranging from **three to nine months**. The fellowship is specifically designed to help researchers finalize their work based on completed primary data collection and analysis.

Proposals for research outputs must focus on urban studies topics that are critical to understanding urban realities within the Global South. These topics include, but are not limited to: **climate change, development, housing, governance, public health, transport, migration, policy, and social equity**. The fellowship will allow scholars to work on research that contributes new insights and innovations to urban studies, particularly in the context of cities in the Global South.

How to Apply

Candidates can apply through the USF's online application portal. The application includes sections for:

Personal information (contact details, recent education, career statement, etc.).

Proposed fellowship details, including dates, mentorship arrangements, and the host institution.

A detailed **budget** with cost estimates for any expenses exceeding **GBP 500**.

A **research proposal**, outlining the planned work, outputs, and how the mentor will support the research.

A **curriculum vitae** and **supporting documents**.

Applications must be submitted by **16th July 2025**.

Stavros Niarchos Foundation (SNF) Global Center Fellowships Program

Innovative leadership programs for building a local workforce and increasing capacity to understand and treat child and adolescent mental health disorders

Our Fellowships

The SNF Global Center Fellowships is an innovative program aiming at identifying and supporting leaders in research, clinical care, and communication in CAMH in LMICs. These leaders will work locally to increase capacity to study, prevent, and treat child and adolescent mental health disorders and improve the public's mental health literacy.

These fellowships make up one of the six core initiatives of the [SNF Global Center for Child and Adolescent Mental Health at the Child Mind Institute](#), which harnesses the Child Mind Institute's commitment to transforming the lives of children struggling with mental health and learning disorders. The SNF Global Center was established with founding support from the [Stavros Niarchos Foundation](#) (SNF) through its [Global Health Initiative](#) (GHI).

Deadline: 16 June, 2025.

Details: <https://childmind.org/global/snf-global-center/fellowships/#Programs>

MOFA Taiwan 2025 Fellowship Program

Are you an expert or scholar interested in conducting advanced research in Taiwan? Do you focus on topics related to Taiwan, cross-strait relations, mainland China, the Asia Pacific, or Sinology? The Ministry of Foreign Affairs (MOFA), Republic of China (Taiwan), offers the Taiwan Fellowship to support scholars worldwide in their academic pursuits.

About MOFA Taiwan Fellowship Program

Since its inception, the Fellowship has supported over 1,400 scholars from 93 countries, allowing them to explore their research topics deeply. This program aligns with the APEC Scholarship Initiative, providing 12 Chinese Taipei APEC Fellowship openings annually for scholars from developing APEC economies.

The Taiwan Fellowship provides substantial financial assistance, including monthly grants, travel subsidies, and accident insurance, ensuring that scholars can focus entirely on their research. The program also facilitates connections with Taiwanese academic institutions, promoting collaborative research and knowledge exchange.

- **Application Deadline:** 30 June, 2024
- View details of [MOFA Taiwan Fellowship Program](#)

ALL FOR GRANTS AND APPLICATIONS

Call for proposals: Global Learning Hub for the Women's Voice and Leadership Learning Partnership

Women's rights movements and organizations are key drivers for creating change to advance, sustain and defend women's human rights and gender justice worldwide. This is especially crucial in times of crisis and conflicts. To address systemic barriers and make it easier for women, girls and LGBTQI+ communities to live and thrive in dignity and peace, they advocate for changes in laws, policies, and societal and cultural norms.

The Women's Voice and Leadership Learning Partnership (Learning Partnership) seeks to accompany the renewed Women's Voice and Leadership (WVL) program, a flagship initiative of Global Affairs Canada (GAC), to provide sustainable resources and programming to women's rights organizations (WROs), groups representing lesbian, gay, bisexual, transgender, queer, intersex and gender non-conforming (LGBTQI+) communities and their movements. It is a five-year initiative, co-designed by GAC and IDRC, and its implementation is led by IDRC, with a budget of CAD10.85 million.

The Learning Partnership will support a learning agenda to enhance the efforts and impacts of the renewed Women's Voice and Leadership (WVL) program to improve human rights and gender equality. It will complement the renewed WVL geographic projects with peer-to-peer learning and knowledge sharing, capacity-strengthening support to WROs, LGBTQI+ groups and movements and contribute to building the evidence around what works and does not work in terms of funding to support feminist and gender equality movements globally. More details about the renewed WVL program and approved geographic projects are available on this webpage: [Women's Voice and Leadership Program](#)

The three-pillar approach

The Learning Partnership centres around three pillars focused on knowledge exchange, evidence gathering and capacity strengthening for feminist monitoring, evaluation, accountability and learning (MEAL):

- Pillar 1 - Peer-to-peer learning and knowledge translation to share lessons and evidence emerging from the renewed WVL program implementation;
- Pillar 2 – Building and gathering the evidence to deepen learning, evidence and synthesis of lessons from the renewed WVL partners' efforts to improve human rights and gender equality; and

- Pillar 3 - Capacity bridging for partner organizations to bolster feminist MEAL and other organizational needs. IDRC will provide grants to organizations in the Global South to co-design and lead on key activities across all pillars. Activities will be co-designed and aligned with feminist programming principles: transformative, intersectional, locally led and flexible. In the second year, the Learning Partnership will support a series of participatory action research grants. These grants will enable a deeper and sustained evidence-gathering process (two to three years), adopting participatory and feminist data-collection methodologies. An emphasis will indicatively be placed on developing deeper findings and lessons about the impact ("what works") of WROs and LGBTQI+ advocacy and interventions to protect and promote gender equality. These grants will be complemented by thematic, strategic evaluations that demonstrate the effectiveness of different programmatic and funding modalities. The Global Learning Hub will be the key point for consolidating learning from these complementary sources and translating these experiences into applicable, useful knowledge for renewed WVL partners. With an overall aim of improving gender equality, the pillars are designed to generate complementary types and depth of learning, knowledge and evidence, which will answer program learning questions to be co-created with renewed WVL partners and build on those that emerged from the first round of WVL projects.

The Learning Partnership is expected to benefit about 2,200 women's rights, feminist and LGBTQI+ organizations under the renewed WVL program across regions. They will gain new insights on strategies and practical ways to improve human rights and gender equality, whether in their ongoing advocacy or more specialized topics like utilizing feminist MEAL to support their practices and improve their sustainability. They will also strengthen their capacity for evidence-informed advocacy on human rights more broadly. Ultimately, the goal of this project is to contribute to increased respect for and protection of human rights by all women and girls and the advancement of gender equality in the renewed WVL countries.

Scope of this call

This call for proposals seeks to recruit the host organization (or consortium of organizations) for the Global Learning Hub for a value up to CAD1.2 million. The Global Learning Hub will be responsible for facilitating a global community of practice for peer-to-peer learning and knowledge sharing among WROs, LGBTQI+ groups and their networks. As a first step, the Global

CALL FOR GRANTS AND APPLICATIONS

Learning Hub will facilitate a participatory design process to co-create a learning agenda — shared learning questions and priorities across regions — with renewed WVL partners (“partners”).

The Global Learning Hub will then support the partners in co-implementing the learning agenda and have the following elements:

- Learning agenda co-design: Co-create a common set of questions, hypotheses or theories of change, and a workplan for generating, sharing and disseminating lessons learned on what works in partners’ efforts to strengthen human rights and gender equality;
- Knowledge dissemination: Administer an online portal for virtual exchanges between partners, and share resources publicly on lessons learned and results; and
- Community of practice: Action learning activities and peer-to-peer exchanges with partners to capture and share lessons in answer to learning agenda questions; track results with qualitative indicators, provide opportunities to reflect and do sensemaking; and help renewed WVL partners exchange and adjust strategies and approaches over the four-year period.

The Global Learning Hub project will work alongside four Regional Learning Hubs to support regional syntheses, contextualized and regionally grounded learning activities, evidence consolidation and lessons sharing related to the co-created learning agenda and questions, including learning on feminist MEAL. The Global Learning Hub will be invited to play a role in the distribution of responsibilities with the Regional Learning Hubs to ensure no duplication in objectives. Separate calls for proposals are expected to be launched in the fall of 2025.

More details on the objectives and indicative activities for the Global Learning Hub follow.

Objectives and key activities

This funding opportunity seeks to support the creation and implementation of a Global Learning hub to accompany the renewed WVL program. Proposed activities can be designed and shaped with the selected organization in the inception phase of the project. We recognize the importance of conducting preliminary consultations and needs assessments with renewed WVL projects before finalizing a workplan. Nonetheless, proposals for the Global Learning Hub should align at a minimum with three (3) main objectives:

Co-design and implement a Learning Agenda

Includes activities such as:

- Co-develop a learning agenda to outline learning objectives and decide on key learning questions of relevance and interest to renewed WVL partners, based on extensive consultations and engagements with them.
- Implement learning activities in multiple forms/formats, including innovative approaches, with a view to enable responsive adjustments during project implementation. Wherever possible, promote capacity bridging based on existing strengths among renewed WVL partners.
- Ensure participatory and inclusive processes across all activities, acknowledging and actively addressing power imbalances and regional, thematic or context specificities.
- Make learning products available throughout the life of the project, rather than solely at the end, and promote spaces to discuss and make meaning on learnings and new knowledge gained from the agenda.
- Offer, as needed, support, guidance, training, etc., to partners on priority needs to guide renewed WVL learning and impacts, including feminist MEAL approaches that can be adapted to different implementing contexts.
- Integrate learnings and lessons coming out of other activities to be supported through the Learning Partnership. This includes evidence from participatory action-research grants as well as thematic and strategic evaluations to come in future years.

Knowledge translation and dissemination

Includes activities such as:

- Review and synthesize WVL partners’ documentation (reports, stories of impact, briefs) to generate practical insights that can improve their practices and online/offline strategies.
- Create and circulate toolkits, guides and manuals to support renewed WVL partners to be institutionally more resilient and sustainable.
- Experiment with different types of knowledge-translation strategies, such as documentaries, podcasts, storytelling and media outreach. Through different tools and approaches, strengthen capacity of renewed WVL partners to report on outcomes.
- Map and develop strategies to be present and visible at key strategic events, forums and spaces and disseminate feminist knowledge and successes from the renewed WVL program.

CALL FOR GRANTS AND APPLICATIONS

Facilitate a community of practice

Includes activities such as:

- Create and facilitate a community of practice for the renewed WVL projects and their networks to enable the projects to share information, learn from each other's experiences and potentially facilitate collaboration between projects as appropriate on priority topics, including a focus on feminist MEAL. Note that the community of practice will not be open to organizations outside of the renewed WVL program.
- Feed and stimulate participation on the digital learning platform, which will be a restricted part of the Learning Partnership (to come). This space will serve as a centralized platform for knowledge management and collaboration across the program. It should not only be seen as a repository for key documentation exchange but aim to stimulate dialogue and exchange.
- Organize online meetings and one global in-person convening to cement relationships and build effective solidarities. The Global Learning Hub will be responsible for organizing the convening (content-wise and associated logistics), and the costs associated with the event (venue rental, food /beverages for lunches and breaks, simultaneous interpretation, IT equipment, etc.). Participants from renewed WVL projects across regions are expected to cover their own travel expenses (airfare, per-diem, accommodation costs, visa, etc.).
- Organize online engagements at a minimum every three to four months, ensuring the development of a vibrant, dynamic community of renewed WVL partners.

Track results with qualitative indicators toward a collective vision with desired outcomes and provide opportunities to reflect and do sense-making as a group.

Budget and requirements

The Global Knowledge Hub recipient will receive a maximum of **CAD1.2 million** to cover its activities over the 48-month period. This includes costs associated with the one in-person global convening.

The expected start date will be September 2025, with a planned project closure in September 2029. Project duration is fixed at 4 years/48 months.

Eligibility and desired qualifications

This call is meant for women's rights and feminist organizations, or consortia of organizations, that:

- Are primarily governed, led and directed in the Global South [\[1\]](#)

- Ensure that women and/or gender-diverse people make up a majority of the organization's staff and board or oversight committee;
- Have the promotion of the rights of women, youth, girls and gender-diverse people as their primary mission — and not only as the focus of some programs;
- Can demonstrate that the Learning Agenda would build on existing work and is already integrated in existing feminist movements;
- Can demonstrate sound experience in adult, peer-to-peer learning and facilitation approaches to bring diverse people together to learn, think and act collectively;
- Can demonstrate sound experience leading adaptive, participatory methodologies to strengthen programming and advocacy to advance gender equality and empower women and girls;
- Strong facilitation skills and track record in conducting training and workshops;
- Experience in applying feminist MEAL practices, with an interest in demonstrating benefits of feminist or gender-transformative approaches;
- Have the logistical, financial and institutional capacity to manage a collaborative project of this nature and scale;
- Are able to perform services in English, French and Spanish, at a minimum.

How to apply

To apply for this funding opportunity, you'll need an account on SurveyMonkey Apply. If you don't have an account yet, or need help with your existing one, please refer to our [Account setup guide](#).

If you have any questions about this call, please contact the Learning Partnership team at lp-pa@idrc.ca before Tuesday, June 3, 2025, 23:59 EDT. Questions sent will be collected and anonymized, with answers available to all applicants on this page as soon as possible.

An online information session will also be held on June 3, 2025, at 9:00 EDT, with simultaneous interpretation in English and French. To confirm your attendance and receive your invitation, please complete the registration form: <https://forms.office.com/r/zbAswHfg4C>

CALL FOR GRANTS AND APPLICATIONS

TDR 2025–2026 Funding Opportunity: Grants of up to USD 20,000 for Research on Knowledge Translation in Low- and Middle-Income Countries

Submission Deadline: 3 July 2025

Maximum Funding: Up to USD 20,000 per project

Project Duration: Up to 15 months (final reports due by 30 January 2027)

Eligible Applicants: Institutions based in low- or middle-income countries

Submission Language: English

Background and Rationale: In May 2025, the World Health Organization (WHO) published the *Global Research Agenda on Knowledge Translation (GRA-KT)*. This agenda outlines key priorities for improving the translation of research into policy and practice. This call for proposals, issued by the Special Programme for Research and Training in Tropical Diseases (TDR), supports research that addresses one or more of the priority areas identified under the GRA-KT:

1. Identifying, developing, and assessing knowledge translation (KT) interventions
2. Addressing barriers, facilitators, and opportunities for KT
3. Developing new methods, standards, monitoring and evaluation frameworks, and theories

Preference will be given to research aligned with the 2024–2029 TDR Strategy, which supports country-led implementation research aimed at improving access to health interventions, scaling up innovations, and strengthening health systems. TDR's strategy emphasizes inclusivity by working with local implementers, researchers, and social innovators.

The TDR Strategy targets four global health challenges affecting infectious diseases of poverty using a One Health approach:

- Epidemics and outbreaks
- Control and elimination of diseases of poverty
- Health impacts of climate change
- Resistance to treatment and control agents

This call is undertaken in partnership with the WHO Evidence Informed Policy unit. Funding will be contingent upon appropriate ethical clearance.

Eligibility Criteria: Eligible applicants must:

- Be researchers or health professionals working in public health institutions such as ministries of health, universities, research institutes, or NGOs located in low- or middle-income countries (as classified by the World Bank)
- Demonstrate a track record in knowledge translation, evidence-informed policy work, or health communication
- Submit proposals in English'
- Collaborations with institutions from high-income countries are welcome. Researchers from diverse backgrounds, including those underrepresented in science, are encouraged to apply. TDR promotes equity, diversity, and inclusion in all funded activities.

Financial Support: Successful projects will receive up to **USD 20,000**, distributed in three installments:

First tranche (up to USD 10,000): For planning, protocol development, seeking co-funding, and ethics approval (to be disbursed by end of 2025)

Second tranche (up to USD 8,000): For implementation, reporting, and dissemination (by end of 2026)

Final tranche (10%): Upon submission of final technical and financial reports

Projects should include a budget for open access publication fees or indicate intent to request waivers. Co-funding from domestic or external sources is encouraged.

Project Timeline and Deliverables: Projects must be completed within **15 months**. The deadline for final reporting is **30 January 2027**, though publication may occur beyond this date. Key deliverables include:

- Approved research protocol and ethics clearance
- Interim and final technical and financial reports
- Evidence of stakeholder engagement and dissemination activities
- Manuscript(s) submitted for publication

Application Process: Applications must be submitted online via the [eTDR Community Site](#) no later than **3 July 2025 at 17:00 CEST**. To apply:

- Create an account** (or log in) on the eTDR Community Site
- Download and complete the application form** [link provided in original call]

Upload the following documents:

- Completed and signed application form
 - Letter of support from a relevant authority (e.g., Ministry of Health, University Department Head, or NGO Director)
 - Curriculum Vitae (CV) for all investigators
 - Proof of institutional affiliation in an eligible country
- All documents must be submitted in English. Incomplete applications will not be considered.

CALL FOR GRANTS AND APPLICATIONS

- These grants are intended for those planning to attend a neuroscience training course taking place between 1 July and 31 December 2025.
- Applications from students wishing to attend an IBRO-Supported School will not be taken into consideration for this program. Please apply directly to the school of interest via the dedicated application page, as indicated in the IBRO Training page.
- Please note that the IBRO Neuroscience Training Grants program accepts applications twice per year. The next round of applications will open from 1 October 2025 – 15 November 2025 and will accept applications for courses taking place during January-June 2026.

Evaluation Criteria

- **Applicant Details:** A brief description of the applicant's academic background and current research focus.
- **Course Description:** Detailed information about the training course, including its relevance to the applicant's research and career development. The course should consist of a structured program focused on education and skill development in a field closely related to neuroscience.
- **Impact Statement:** A comprehensive explanation of how the participation in the specified course will benefit the applicant's research and/or career trajectory.
- **References:** A minimum of one letter of reference supporting the applicant's suitability for the grant and the chosen training course. One reference must be from the applicant's current supervisor.
- **Budget Request:** A detailed budget breakdown, including course fees, travel costs, and local expenses associated with attending the training course. If IBRO funds will be used as matching funds, you will also be asked to provide details on the co-funding source(s) and amount(s).

For more information, visit [IBRO](#).

Sustainable and Innovative Social Protection Programmes in Nigeria

Deadline: 20-Jun-25

The European Commission (EC) is accepting proposals to support Sustainable and Innovative Social Protection Programmes in Nigeria.

For more information, visit [EC](#).

Isaac Newton Trust Project Completion Grants for Mid-Career Researchers in Humanities

About the Trust

INT is pleased to announce new awards, made possible by a donation by Trinity College, offering support for mid-career researchers to complete their second monograph, or other substantial piece of research that qualifies for the Research Excellence Framework (REF). This is to be achieved by making grants to Department/Faculty or College, as appropriate, for eligible researchers to cover the cost of a term's relief from teaching and administration.

Ten grants of up to £15,000 each are available in each academic year. The scheme will run for two years in the first instance.

Rationale

In most subjects in the humanities, monographs are an important output for career progression and are weighted substantially in the REF. Trinity College recognises the challenges faced by mid-career scholars who take on major administrative duties in departments and colleges amidst growing care responsibilities and has provided funding specifically to enable the research output of such individuals. Grants are offered to Departments and Faculties in the Schools of Arts and Humanities and of Humanities and Social Sciences, and/or (where relevant) Colleges, to enable mid-career researchers in the humanities to complete a substantial project that qualifies for REF submission, by providing the costs of replacement teaching and administrative duties for one term.

Eligibility

Subject: Grants are offered for support of mid-career researchers in the School of Arts and Humanities and School of Humanities and Social Sciences.

Mid-career researchers: are those who (at the point of application) have been more than five years in their current post or nine years since the submission of their PhD for examination (and to include those who may have come to Cambridge after a teaching post elsewhere), whichever is the earlier, and who have not yet attained professorial status (Grade 12) or the equivalent.

Sabbatical leave: it is expected that the researcher will have accrued at least one term's sabbatical leave to benefit optimally from the additional term of teaching/administrative relief to be funded by this scheme, but this is not a requirement if a project is feasible nonetheless.

CALL FOR GRANTS AND APPLICATIONS

Grant Opportunity

Opportunity Grants aim to nurture and encourage innovative ideas and approaches on sexual and reproductive health rights (SRHR) advocacy in new contexts. They allow local, small civil society and grassroots organisations to drive the advocacy agenda and ensure change happens in SRHR.

GRANT OPEN UNTIL 16 JUNE 2025

The duration of an Opportunity Grant can be 18 to 36 months. This funding round is open for applications up to GBP 75,000. We encourage you to be realistic and apply for the amount that is best for your organisation and project.

GRANT AMOUNT UP TO £75,000

GRANT DURATION (YEARS) 1.5-3

ELIGIBILITY CRITERIA

All applicants must meet the general eligibility criteria as well as the criteria detailed below.

- Your organisation must be based in and implementing a project in one of the AmplifyChange eligible countries.
- You must be a small to medium sized organisation with an average annual expenditure over the past two years of less than GBP 200,000. For example, if your expenditure in 2021 was GBP 100,000, and in 2022 it was GBP 350,000, the average would be GBP 225,000 – this would mean you would not be eligible to apply.
- You will be asked to submit evidence for your expenditure values. This could be an audited report or a profit and loss statement.
- Both registered and unregistered groups can apply for an Opportunity Grant. If your organisation is unregistered and your application is successful, we will either work with you to register and open a bank account or work with you to identify an organisation that can help manage grant funds on your behalf ('fiscal sponsor').

Which countries are eligible?

Projects must be based in one of the following countries:

Afghanistan, Algeria, Angola, Bangladesh, Benin, Bhutan, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Cote D'Ivoire, The Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Eswatini, Ethiopia, Gabon, The Gambia, Ghana, Guinea, Guinea-Bissau, India, Jordan, Kenya, Lebanon, Lesotho, Liberia, Libya, Madagascar, Malawi, Maldives, Mali, Mauritania, Morocco, Mozambique, Myanmar, Namibia, Nepal, Niger, Nigeria, Occupied Palestinian Territories, Pakistan, Republic of Congo, Rwanda, Sao Tome and Principe, Senegal, Sierra Leone, Somalia, South Africa, South Sudan, Sri

Lanka, Sudan, Syria, Tanzania, Togo, Tunisia, Uganda, Western Sahara, Yemen, Zambia, Zimbabwe

WHAT ARE WE LOOKING FOR?

1. Priority themes

The purpose of this Opportunity Grant call is to fund small civil society organisations, support their advocacy work, and strengthen them so they can bring about positive change in one of the AmplifyChange priority themes or an intersection or combination of themes: Abortion, Violence, Youth, Stigma and Access.

2. Outcome areas

Applications must respond to one or more of our outcome areas in our Theory of Change: Increasing individual awareness of SRHR as human rights; Improving access to SRHR resources, information & services ; Transforming social norms ; Changing policies & laws ; and Building stronger, more inclusive movements for SRHR.

3. Other themes

Within our priority themes, AmplifyChange supports cross-cutting themes that impact on SRHR and well-being and respond to challenges that advocates identify as their priorities for action. We are happy to receive applications from organisations who wish to integrate these issues into their proposals: Climate Justice, Pleasure and Mental health.

KEY APPROACHES

AmplifyChange funds advocacy. We are focused on achieving long-term, sustainable change, and we recognise that collective actions are the best way to achieve change. Understanding how you connect to the wider movement and demonstrating how you are working towards the same change is critical.

We are particularly interested to fund projects that:

- Are submitted by small, grassroots organisations that find it challenging to access funding.
- Aim to address the root causes and drivers of discriminatory social norms and inequitable power relations.
- Pilot a new idea or innovative approach and to learn lessons about what is effective.
- Implementing a promising practice that have shown initial success.
- Empower marginalised groups to advocate for their rights and access to services.
- Work towards the development, improvement and effective implementation of laws and policies, including by-laws.

CALL FOR GRANTS AND APPLICATIONS

POCTRN Unveils Six New Innovation Award Opportunities to Propel Point-of-Care Technologies

The POCTRN network is excited to unveil six exciting new innovation award opportunities to help foster groundbreaking advancements in health technology.

We are currently seeking applications from academic and industry applicants who have innovative point-of-care technologies in areas of chronic disease, infectious disease and disease prevention, such as cancer detection, heart, lung, blood, and sleep disorders, STIs, emerging infectious disease in low-resource settings, and more.

Each center offers unique awards, with the potential for awards to reach up to \$150,000. Successful applicants may also receive 12 months of in-kind support services.

Learn more and apply about each of the opportunities below.

Applications are due at 11:59 PM on June 6, 2025.

Detail: [Solicitation 2025 - POCTRN - GAITS](#)

CALL FOR APPLICATIONS: SMALL GRANTS FOR AFRICAN HERITAGE PROJECTS

The **Heritage Management Organization (HERITAGE)** is launching a new call for concept notes for small grants (\$5000-\$50000) for organizations, groups, and individuals working with heritage in Africa.

The grants are part of our **Heritage Management Project – Africa (HerMaP-Africa)** which is funded by the **Mellon Foundation’s Humanities in Place** program. They will fund projects that focus on the protection of and/or promotion of local heritage for socio-economic development in the continent.

“We are looking **to untap** the potential of heritage in Africa, in order to make a difference for the development of local communities,” said HERITAGE Director, Dr. Evangelos Kyriakidis. “Heritage has the ability to empower and we are ready to partner with local organizations around the continent to this end.”

Applicants will have to demonstrate that their project addresses one or more of three criteria:

1) Sustainability – Our focus is on projects that will have a lasting impact, much beyond the duration of the project, for example protecting heritage sites from desertification by creating green belts, preserving/stabilizing/restoring and adaptively reusing a historic building for community needs, researching the public heritage landscape, installing solar

panels at heritage sites to generate income or decrease expenditure in the long term, building eco-friendly tourism infrastructure, direct interventions that strengthen social institutions, like traditional methods of mediation, etc.

2) Capacity development and network building – We encourage projects that strengthen local skills and build closer links with peer organizations in the HERITAGE network. Examples include on-the-job training in preventive conservation (e.g clearing or fencing sites), experience and expertise exchanges with other local NGOs on shared issues such as desertification or erosion of sites, co-operative training on museum exhibition design, etc.

3) Concrete and community impact – We encourage projects with strong, measurable incomes in terms of heritage protection and benefits to local people. Each project should provide clear indicators of the planned impact. These indicators will depend on the type of work carried out but some examples include increased visitation to a heritage site or program, financial benefits to the local community in terms of increased employment opportunities or local businesses created; tourism earnings; money savings by solar panel installation; the size of area protected from desertification, etc.

To apply for these grants please complete the concept note [application form you will find here](#).

About HerMaP-Africa: Made possible by a \$5 million grant from the [Mellon Foundation’s Humanities in Place](#) program, it aims to strengthen HERITAGE’s Africa programs, fund initiatives that link heritage with socio-economic impact, develop the capacity of local organizations, and help them preserve African heritage and culture.

About The Andrew W. Mellon Foundation: The Andrew W. Mellon Foundation is the largest supporter of the arts and humanities in the United States. Since 1969, the Foundation has been guided by its core belief that the humanities and arts are essential to human understanding. The Foundation believes that the arts and humanities are where we express our complex humanity and that everyone deserves the beauty, transcendence, and freedom that can be found there. Through its grants, it seeks to build just communities enriched by meaning and empowered by critical thinking, where ideas and imagination can thrive. Learn more at [mellon.org](#).

Deadline: Open

CALL FOR GRANTS AND APPLICATIONS

Notification of intent: Transdisciplinary research to tackle antimicrobial resistance

Opportunity status: Open

Funders: UK Research and Innovation, Arts and Humanities Research Council (AHRC), Biotechnology and Biological Sciences Research Council (BBSRC), Engineering and Physical Sciences Research Council (EPSRC), Economic and Social Research Council (ESRC), Medical Research Council (MRC), Natural Environment Research Council (NERC), Science and Technology Facilities Council (STFC)

Funding type: Grant

Total fund: £15,000,000

Award range: £1,500,000 - £3,000,000

Publication date: 25 March 2025

Opening date: 25 March 2025 9:00am UK time

Closing date: 18 June 2025 4:00pm UK time

Apply for funding to undertake ambitious transdisciplinary research to tackle antimicrobial resistance (AMR). You must be employed by a research organisation eligible to apply for UK Research and Innovation (UKRI) funding. Your team and research project will bring new perspectives crossing Councils' remits to understand and provide solutions to tackle AMR.

The full economic cost (FEC) of your project can be up to £3,000,000. UKRI will fund at 80% of the FEC.

The duration of the award is up to five years.

You must provide a notification of intent (No I) at the pre-application stage to be eligible to make a full application.

The full funding opportunity will open on 18 June 2025. More information will be available on this page then.

Who can apply?

To lead a project, you must be based at an eligible organisation. Check if your organisation is eligible.

Who is eligible to apply?

This funding opportunity is open to individuals based at standard eligible organisations, including grant holders for the Transdisciplinary Networks to tackle AMR funding opportunity.

RESEARCH DEVELOPMENT FELLOWSHIP 2025/26

The Africa Research Excellence Fund is pleased to launch the call for the 2025/26 AREF Research Development Fellowship Programme.

Programme Overview

Aim. To support researchers in Africa who are emerging leaders and working on important challenges for human health, to develop their skills as a researcher.

What we offer. A three to nine-month placement at a leading research institution in the UK, Europe or Africa, with additional support at your home institution before and after the placement. Up to £47,000 available

Who is eligible? Early career researchers. These are research active post-doctoral scientists and clinicians with higher qualifications who are nationals of and employed in Africa (see detailed eligibility criteria).

How to apply. Read the guidance documents carefully **before** developing your proposal and starting your application. Complete the application form via the portal at <https://programmes.aref-africa.org.uk/>

Deadline for submission of all application documents:

13.00 hours GMT on 27 June 2025

Decisions. We will notify applicants of the outcomes of their applications by December 2025.

Fellowships. Successful Fellowships can start between June 2026 and no later than December 2026.

Questions. Should you have any further questions that are not contained in the scheme information document, please contact us via the "Contact Us" section on the portal which can be found on the left hand panel on your homepage preferably by 20 June 2025

It is essential that you discuss your plans for an AREF Fellowship in the context of your career development with appropriate leaders within your Employing Organisation and Host Organisation at an early stage. You need your sponsors and other senior people to agree and support your plans.

AREF does not reimburse your Employing Organisation for your salary while you are away on placement: we do, however, support reasonable accommodation, travel and subsistence, and training costs.

Guidance documents

1. [Scheme Information](#)
 2. [Guidance on Completing the Application Form](#)
 3. [AREF Terms and Conditions](#). This is also available on the portal
- You can read more about our [fellowship](#), and what kind of topics [our Fellows](#) who come from Africa have been researching.

Next steps:

We will be hosting information sessions, and providing more insights about the Research Development Fellowships to applicants. You can stay connected by Following our [Twitter](#) and [LinkedIn](#) for updates, and [subscribe to our newsletter](#) to be the first to hear about our opportunities.

CALL FOR GRANTS AND APPLICATIONS

Spaces of Culture Funding Scheme in Sub-Saharan Africa

Deadline: 8-Jun-25

Are you a cultural and/or civil society organisation in Sub-Saharan Africa, looking to start or strengthen an Africa-Europe collaboration project in culture? Or, do you want to engage with other African and European partners to respond to local challenges through a co-creative and innovative cultural project? If yes, then The Spaces of Culture Funding Scheme is the right choice for you.

The Spaces of Culture Funding Scheme is part of the EU-funded Africa-Europe Partnerships for Culture programme, is looking for new and exciting collaborative cultural relations projects taking place in Sub-Saharan Africa.

The Spaces of Culture programme brings an exciting opportunity to:

- place focus on networking and relationships, new audiences, and opening up civic space;
- continue to cultivate and develop a shared cultural relations approach to cooperation between Africa and the European Union (EU);
- explore in more depth approaches to fair collaboration in Africa including new and balanced partnerships between Europe and Africa and considerations of ethical sensitivities linked to colonial legacies.

Purpose

- The purpose of this [call for proposals](#) therefore is to find and support concrete cultural relations projects taking place in Sub-Saharan African countries.
- The call supports involvement of a broad range of EU Member States, with many EUNIC members having the ambition to start new relationships, open branches, or otherwise intensify their collaboration on the continent, while at the same time broadening the range and diversity of local partner organisations from the continent collaborating with their European counterparts.
- This also includes the flexibility to develop and support initiatives in countries on the continent where the presence of Member States is limited or with no existing EUNIC cluster. All EU Member States active on the continent therefore are invited to participate through their network of either cultural institutes or embassies.

Funding Information

Applicants can request up to EUR 50,000. Co-funding of at least 5% of the requested grant amount is required from project

partners or third parties (excluding EU Delegations). For example, a EUR 50,000 grant request requires a minimum co-funding of EUR 2,500.

Duration

- Projects supported for funding should take place in the period between 1 September 2025 and 31 August 2026 in one or more Sub-Saharan African countries.

What are they looking for?

- Projects need to subscribe to the principles of cultural relations and must go beyond the projection and promotion of (the diversity of) European culture in Sub-Saharan Africa. Project activities demonstrate deeper understanding of these principles by practicing mutual listening and learning, engaging in dialogue, co-creation and joint capacity building with all partners involved.
- Projects can take any format, focusing on arts, creative industries, digitalisation, education, gender, heritage, human rights, social inclusion, sports, sustainability, tourism, [youth](#), and others.
- The call encourages contemporary and innovative formats, including digital or hybrid ones. As preparatory activities for the project, [research](#), feasibility studies, and capacity building initiatives are possible. Projects could also have the potential to **be upscaled** and translated to a different context.
- Extra attention should be given to widening access to culture and cultural collaborations, especially amongst:
 - Youth
 - People with disabilities
 - Communities outside urban areas
 - Communities living in fragile contexts, including environmental and [security](#) fragility.

Eligibility Criteria

- The call aims to broaden the range of local organisations collaborating with European counterparts in Sub-Saharan Africa.
- The call also supports the involvement of EUNIC members that wish to intensify their collaboration on the continent, particularly where the presence of EU Member States or a EUNIC cluster is limited.
- Project proposals must include a minimum of: three key local cultural and/or [civil society](#) partners, three full EUNIC members (with possible exceptions in countries with limited EUNIC presence), and involvement from EU Delegation(s) in the country (ies).

For more information, visit [EUNIC](#).

CALL FOR GRANTS AND APPLICATIONS

Submissions open for Al-Sumait Prize in Food Security 2025

Deadline: 30-Jun-25

The Al-Sumait Prize honors individuals or institutions who have, through their work or research, made significant advances in the fields of food security, health, and education in Africa.

Sponsored by the Kuwait Ministry of Foreign Affairs on behalf of the State of Kuwait and managed by the Kuwait Foundation for the Advancement of Science (KFAS),

The goal is to shine a light on those making a positive difference to sustainable [development](#) in Africa.

Objectives

- Administered by KFAS and a Board of Trustees, the objective of the prizes is to recognize the best studies, scientific projects, applied [research](#), and innovative initiatives that have a significant impact and lasting influence on advancing progress towards economic and social development in Africa.

Prize Information

- The prize is awarded annually and has a value of \$1,000,000 (One million US dollars).

Requirements

- The nominated candidates' research and development work or projects and initiatives must be innovative and have achieved high-impact in the African continent.
- The submitted work must be of paramount importance in promoting significant economic, social, human resources and infrastructure development within the announced field of the prize, education.
- The submitted research work of a nominated candidate should be composed of studies and applied research, published in peer-reviewed scientific journals and recognized at a global level within the announced field. The research outcomes need to have been applied after publication in African countries within the past ten years. Adequate supporting evidence needs to be provided.
- Nominations are accepted from competent regional and international institutions and scientific centres (universities, institutes and centres of scientific research) as well as from UN organizations, former winners in the field of the prize, or former evaluation members.
- All submissions must be submitted in English. If the work is carried out in another language, a comprehensive summary of the nominated work in English must be submitted.

For more information, visit [Al-Sumait Prize](#).

Funding Alert

Connecting Indigenous Research Leadership in Canada and the Global South

IDRC is pleased to announce a call for proposals to connect Indigenous research and leadership in Canada and in the Global South to complement the Tri-agency strategic funding opportunity [Indigenous Capacity and Leadership in Research Connection Grants](#) being led by the Social Sciences and Humanities Research Council (SSHRC).

This call is open to Indigenous organizations or organizations supporting Indigenous-led research programs based in the Global South. If you are an organization based in Canada, please consult the [Tri-agency strategic funding](#).

The call expects to fund up to seven grants for Indigenous organizations in the Global South that are interested in connecting with First Nations, Métis and Inuit communities in Canada through knowledge-sharing activities. These activities aim to co-develop an interdisciplinary, Indigenous research agenda and build alliances between Indigenous researchers in the Global South and First Nations, Métis and Inuit researchers in Canada, potentially leading to broader joint research endeavors in the future.

IDRC will allocate up to CAD700,000 through this call, with projects receiving up to CAD100,000 each. Each individual project will be 12 months in duration.

Eligibility

To be eligible, the Lead Applicant Organization must be a legally recognized, not-for-profit research-focused entity headquartered in an eligible country within the region of operation and must be Indigenous or support Indigenous-led research programs involving Indigenous researchers, particularly women or gender-diverse individuals. Government bodies, individuals and branches of international organizations are not eligible to apply.

More details

For more information, please read the [detailed call for proposals document](#) and [frequently asked questions](#).

More questions? Please direct them to educationandscience@idrc.ca

Deadline: Tuesday, September 23, 2025 - 23:59 ET

CALL FOR GRANTS AND APPLICATIONS

THE ROCKEFELLER FOUNDATION BELLAGIO CENTER RESIDENCY PROGRAM 2026

Application Deadline: June 5, 2025

Applications are now open for the [2026 Rockefeller Foundation Bellagio Center Residency Program](#). Based in Lake Como, Italy, the four-week residency offers participants the opportunity to unleash their creativity and advance groundbreaking work. Residents can take advantage of focused, uninterrupted work time in this unique environment while participating in an interdisciplinary, cross-cultural cohort. They form lasting bonds and stay connected to The Rockefeller Foundation long after their residency ends as members of the Bellagio Network.

The Bellagio Center Residency Program is for thinkers, doers, and dreamers working in any discipline or area of study. Projects can be based on any topic but must demonstrate clear social impact and charitable purpose. We look for applications that produce novel solutions and approaches, as well as new knowledge and art that inspires change.

Resident Requirements

Residents Are:

- Leaders with significant achievement and recognition in their field
- Forward-looking, with a track record of advancing breakthrough ideas or actions that have had tremendous impact
- Aligned with The Rockefeller Foundation's mission to promote the well-being of humanity
- Curious and collaborative — open to giving and receiving feedback from a diverse group of fellow residents
- Excited to remain active in the Bellagio Network after their residency

Benefits

- Up to four (4) weeks at The Rockefeller Foundation Bellagio Center in Lake Como, Italy
- Room and board with a private studio for working
- A shared community of up to 14 scholars, artists, and practitioners from around the world
- Travel funding

Future participation in an international network of Bellagio Center alumni, united in the shared purpose of creating a better world

Selection Process:

Bellagio Center residents are selected through an annual open call for applications, as well as an internal referral process. In both cases, individuals must submit an application and go through a competitive review process.

The first step in the application process is a **[Pre-Application Questionnaire](#)** to verify eligibility. Eligible applicants can then complete an online **Expression of Interest** to share more about their professional background and proposed project. The Rockefeller Foundation will invite a shortlist of candidates to submit a full application. An external review panel will inform the selection of finalists to proceed to the interview stage. Final decisions will be made by the end of December 2025.

For More Information:

[Visit the Official Webpage of the Rockefeller Foundation Bellagio](#)

Call for Proposals: U.S. Department of Justice Office on Violence against Women - Grants to Reduce Domestic Violence, Dating Violence, Sexual Assault, and Stalking on Campus Program.

The Campus Program provides funding for institutions of higher education to develop and strengthen effective security and investigation strategies to combat domestic violence, dating violence, sexual assault, and stalking on campus; develop and strengthen victim services in cases involving such crimes on campus; and develop and strengthen prevention education and awareness programs. Entities that are eligible to apply are: Institutions of higher education in the United States and U.S. territories. Letter of Intent closing date: 24 June 2025.

NNVAWI Founders' Legacy Early- and Mid-Career Seed Grant:

The Nursing Network on Violence against Women International is offering a \$7,000 USD grant to catalyze innovation in research to end violence against women and girls. This biennial research grant, awarded at each NNVAWI Conference, funds studies that aim to prevent violence and mitigate its health and social harms. To apply, you need to be enrolled in a doctoral program or have completed your terminal degree within the past 10 years. Deadline is 15 August 2025.

Swiss National Science Foundation — Postdoc Mobility

Postdoc researchers who wish to pursue an academic career in Switzerland are invited to apply to the Postdoc Mobility fellowships. The research stay enables researchers to acquire more in-depth knowledge, increases their scientific independence, and enhances their research profile. The fellowships include a grant for subsistence costs, a flat rate for travel expenses, and a possible contribution to research and conference costs. The funding period is 24 months. Foreign nationals are eligible if they have at least 2 years of research activity at a Swiss research institution. The application deadlines are 01 February and 02 August 2025. **Postdoc.Mobility:** <https://www.snf.ch/en/XIZpfY3iVS5KRRoD/funding/careers/postdoc-mobility>

CALL FOR GRANTS AND APPLICATIONS

Wellcome Accelerated Awards

This scheme will support researchers of Black, Bangladeshi and Pakistani heritage in the UK to undertake activities that put them in a stronger position to reach their next career stage within academia. The funding can be used for research or research-adjacent activities, such as training, secondments, and networking.

Deadline: 15 July 2025

Details: <https://wellcome.org/research-funding/schemes/wellcome-accelerator->

CALL FOR GRANTS AND APPLICATIONS

Supporting African Science and Tertiary Education (SASTE) Grant – 4th Call

Deadline: 30 November 2025

The Supporting African Science and Tertiary Education (SASTE) Grant to support high potentials from Sub Sahara Africa working in the field of Agriculture, Forestry, Water Management, Renewable Energies, Nutritional Science, Human and Veterinary Medicine for a research stay in Austria.

The world needs your work—let's fuel it with the right grants.

Join Premium

There are two crucial elements for a proposed research project to succeed: High relevance for a sustainable development of the Sub Sahara region and a high probability that the research results translate into new products, processes, services or improved living conditions. The employment of digitalization or artificial intelligence within the research projects is highly appreciated.

The grant is financed by a private donor in form of a contract between the donor and hosting institution in Austria based on the results of the competitive selection process. There is no legal claim to a grant even if all application requirements are fulfilled. The number of grants that will be awarded during one call depends on the quality of the applications and the available budget.

Funding Information: You're not alone—thousands of NGOs trust us to find the right funders.

Learn how (85% Discount)

- Monthly stipend of 1500 Euro is provided.
- Additional support for housing of up to 600 Euro/month.
- Travel budget of up to 3000 Euro/year for scientific visits of the home institution and scientific conferences.
- Costs for the hosting institution in Austria of up to 2500 Euro/year according to work and budget plan as part of the application.
- Grant duration may range between 12 to 24 months, depending on the complexity of the project.

Costs Covered

- An extension of the grant is not possible.
- Confirmation of the necessary in-kind contributions by the home institution (e.g. support for field work, technical equipment etc.)
- Additional funding related to the proposed research is beneficial, but is subject to disclosure.

Eligibility Criteria

- Post-doctoral scientists (< 42 years old, women < 45 in case of child care) working in one of the fields of the above listed topics of the call.
- Applicants hold a research position in Africa (which ensures the continuation of the work at the home institution after the research stay in Austria) and have research experience in the field of the proposed research.
- PhD earned from outside Austria is desirable but not obligatory. If PhD earned and application for research stay concern the same

- university or department in Austria, great importance will be attached to the novel aspect of the research project.
- 6 months prior to the planned stay, the applicant has not studied or worked in Austria.
- A minimum of 3 and a maximum of 7 years of post-doctoral work experience within a University or higher research organization located in Sub-Sahara Africa.
- Contract with the home institution for at least 2 more years after the research stay (Confirmation by the home institution is needed, e.g. contract details).
- Confirmation by the Austrian hosting institution and the supervisor to accept the applicant as well as to provide the necessary resources for the research (office space, facilities, time, etc.).
- Excellent language skills in English or German.

Application Requirements: Grants are closing fast—don't miss the one made for you.

Be a Premium Member (85% off)

- Research proposal (6 to 10 pages) with a detailed outline of the planned work, methodologies, literature etc., why this work needs a research stay in Austria, the long-lasting impact at the home institution and the region, any other information supporting the application.
- Motivation letter (up to 2 pages) covering motives for working in research/in a certain field of research, expectations for the future career.
- Detailed Curriculum vitae with the list of publications and scientific achievements.
- Employment confirmation for a contract for a minimum of 2 more years after the return from Austria at the home institution (The contract is needed).
- Recommendation (up to 2 Pages) letter from the head of the unit of the home institution covering the support and the importance of the work of the applicant, and how this will be implemented and improve the work at the home institution.
- Confirmation of in-kind contributions provided by the home institution (supporting field work, personal etc.)
- Recommendation letter from the head of the unit (1 Page) and the supervisor of the hosting institution (up to 2 pages) in Austria covering the acceptance of the applicant and the provision of the support (facilities and supervision) needed to achieve the goals of the research proposal.
- Disclosure of additional funding related to the proposed research project.
- Other documents needed for the admission into the hosting institution and for the application for a temporary residence permit: copy of the passport (proof of identity), birth certificate, extract from judicial record not older than 3 months. For more information, visit [Agency for Education and Internationalization](#).

CALL FOR GRANTS AND APPLICATIONS

THE CONSERVATION, FOOD & HEALTH FOUNDATION

Guidelines

The Conservation, Food and Health Foundation seeks to protect the environment, improve food production, and promote public health in Africa, Asia, the Caribbean, Latin America, and the Middle East.

Types of Support

The Foundation supports projects and applied research that:

- Generate local or regional solutions to problems affecting the quality of the environment and human life;
- Advance local leadership and promote professional development in the conservation, agricultural, and health sciences;
- Develop the capacity of local organizations and coalitions; and
- Address challenges in the field.

The Foundation prefers to support projects that address underfunded issues and geographic areas.

The Foundation funds applied research, pilot projects, new initiatives, training, and technical assistance, rather than ongoing support for programs that are already well underway. An important goal for the Foundation is to provide seed money to help promising projects, organizations, and individuals develop the track record they need to attract major foundation funding in the future.

Fields of Interest

The following are examples of the Foundation's areas of interest within the fields of conservation, food, and health, and are not meant to be exclusive.

Conservation

Conservation grants promote environmental conservation through field research, projects, and advocacy that:

- Protect biodiversity and preserve natural resources.
- Help mitigate the adverse effects of climate change.
- Build the scientific and technical capacity of local conservation organizations and promote local, regional, and international partnerships.
- Increase engagement between scientists, local communities and organizations, and decision-makers.
- Partner with indigenous communities and local people.

Food

Grants in the food and agriculture program area focus on targeted demonstration, applied-research, and inquiry-based projects that support on-the-ground science and advocacy. Such efforts build capacity for self-sufficiency and resilience to climate change, enhance food security, strengthen local food systems, and support healthy nutrition through projects that:

- Develop and promote sustainable agricultural practices
- Build the capacity of small-scale farmers.
- Advance farmer research and research partnerships.
- Develop environmentally sound and affordable approaches to control pests and diseases affecting important local food crops.
- Promote indigenous food sovereignty and knowledge systems.
- Address challenges of uptake and scalability through new methods of extension, education, and technology transfer.

Health

The Foundation supports efforts that test new ideas and approaches that promote public health, with a special emphasis on reproductive health and family planning and their integration with other health promotion activities. It favors community-level disease prevention and health promotion projects and efforts that help strengthen regional and country public health systems over disease diagnosis, treatment, and care provided by clinics, hospitals, and humanitarian aid programs.

Activities that help increase capacity include applied research, program development, technical assistance, and training projects that:

- Promote reproductive health and family planning.
- Address issues related to mental and behavioral health.
- Address issues relating to pollution and environmental health.
- Increase the understanding of zoonotic and neglected tropical diseases.
- Address issues relating to nutrition and health.

CALL FOR GRANTS AND APPLICATIONS

Key Priorities

In all of its areas of interest, the Foundation gives priority to projects that have the potential to advance the field, build local capacity, promote replication, influence public opinion and policy, affect systems change, and benefit people beyond the immediate project and its local context.

Eligibility

The Foundation supports local, state, and regional organizations in Africa, Asia, the Caribbean, Latin America, and the Middle East in the countries where the projects are based. It also supports organizations located in upper-income countries working with local partners in these areas. It does not support projects in post-Soviet states or Balkan states.

Most types of organizations that can provide evidence of their non-governmental status or charitable purpose are eligible to apply, including non-governmental organizations, nonprofit organizations; civil society organizations; community-based organizations; and colleges, universities, and other academic institutions.

Government agencies and religious organizations may be included as project partners but are not eligible for direct funding.

The Foundation does not typically fund:

- Overhead or indirect project costs
- General operating support
- Direct food, health or other humanitarian aid
- Eco-tourism
- Buildings and capital improvements
- Projects ultimately intended for private gain. All intellectual property developed with the grant should be public.
- Salaries for Executive Directors of U.S. and European-based organizations.
- Project expenses incurred before the grant is awarded.

Grant-Making Policies and Procedures

There is no minimum or maximum grant size. It is anticipated that most grants will fall in the \$25,000-\$50,000 per year range. Grants are made for a one- or two-year period. Second-year funding is conditional on the provision of a satisfactory progress report, interim financial report, and work plan. Renewal requests for projects that were not originally approved as a multi-year project may be considered, but require a new application.

Grant awards are made twice a year, once in the spring and once in the fall, with applications due several months prior. Timelines are publicized on the website in advance and may differ slightly from year to year.

The Foundation will consider only one proposal from an organization in any calendar year.

Reporting requirements are designed to avoid burdensome work for grantees while providing sufficient information for the Foundation to assess expenditures, accomplishments, and any unanticipated difficulties in performing as proposed. Reporting is expected as follows:

- Final reports are due within one year following the initial application or the beginning of the last year of funding, whichever is later.
- Interim progress reports, interim financial reports and second-year work plans for multi-year grants are due 30 days before the end of the recipient's first grant period.

Report templates and due dates will be sent with the initial grant letter.

Correspondence and inquiries should be directed to:

Sustainable and Innovative Social Protection Programmes in Nigeria

Deadline: 20-Jun-25

The European Commission (EC) is accepting proposals to support Sustainable and Innovative Social Protection Programmes in Nigeria.

- **Under Lot 1:** The action will contribute to our Social Protection programme, helping it strengthen, expand, and digitalise the National Social Register (NSR) as an effective management information system with improved mechanisms, to make it a shock responsive system and a tool for policy planning towards poverty reduction and interoperable with other existing related databases.
- Under Lot 1, the goal is to advocate, campaign, build knowledge, create awareness and promote the activities linked to social protection system in specific states and at national level. This action will be implemented at the national level and selected states across the country in collaboration with the existing EU funded project on social protection system strengthening.
- **Under Lot 2:** The action intends to support government to strengthen the social protection systems and contribute to reducing poverty and building resilience among the poor and vulnerable households, with a particular focus on [women](#) and girls in communities affected by climate change. This entails, primarily, direct support to selected

Early Career Conference Grants 2025 –

Application Details

Applications Close: 26 June 2025, 15:00 UTC

[The Early Career Conference Grants](#) are designed to support emerging researchers and academics by offering them the opportunity to attend and actively participate in in-person conferences in Commonwealth countries outside of their country of work. These grants aim to foster professional growth, research development, and international collaboration for early career academics.

For many early career researchers, attending conferences is an invaluable opportunity to enhance their teaching and research activities. These events provide a platform for sharing their research, gaining insights into the latest developments in their field, and building essential professional networks that can help shape the trajectory of their careers.

By connecting with peers and experts from different

institutions, researchers expand their knowledge base, strengthen their international collaborations, and bring back fresh ideas to share with colleagues and students, benefiting their academic communities.

Grant Overview: The Early Career Conference Grant provides financial support up to **GBP 2,000** to cover: Conference registration fees: Flights, Accommodation, Visa costs, Travel and health insurance

The grant ensures that emerging researchers have the financial resources to attend important conferences without the burden of funding these costs themselves.

Eligibility Criteria: Applicants must meet the following criteria to be eligible:

Early Career Status: Applicants must be an early career researcher or academic at an ACU (Association of Commonwealth Universities) member institution.

Career Timeline: Applicants should be within **7 years of the start of their academic career** (research/teaching). Career breaks are accounted for, meaning applicants who have taken time off for personal or professional reasons (including caregiving) are still eligible.

Conference Participation: To qualify, applicants must have been invited to participate in a conference taking place in a Commonwealth country between **August 2025 and 31 July 2026**. They must be either:

- Chairing a session,
- Presenting a paper, or
- Presenting a poster.

Applicants must carefully select a conference that aligns with their academic focus and fits within the specified time frame. The grant will only cover costs related to conferences that meet these criteria.

Application Process: To apply for the Early Career Conference Grant, applicants must:

- Review the **application guidance** and [FAQs provided](#) on the ACU website to ensure all eligibility criteria are met.
- Submit an application through the [online application form](#).
- If you already have a MyACU account, you can access the application form directly when applications open on 1 May 2025.
- If you do not have a MyACU account, please create one [here](#) before the application period opens. Follow the registration instructions in the confirmation email to log in and complete the application.

Travel Grants

DMM Conference Travel Grants

General guidelines:

- Maximum funding is set at £400 within the home country and at £600 for meetings overseas.
- The amount given depends on demand and may provide only a portion of the requested funding.
- Applicants who are presenting talks or displaying posters might be looked on more favourably than those who are not.
- DMM does not fund applications made retrospectively, so please submit your application in good time.
- DMM reserves the right to reject applications to attend conferences or workshops that it considers to be possibly 'predatory' in design. We strongly encourage applicants to judge the legitimacy and credentials of conferences to help decide whether or not to attend. The [Think.Check.Attend](#) initiative might be useful in this regard.
- The date of travel must occur within six months of funding being awarded.
- Unsuccessful applicants may not submit a new application within 12 months of their initial application unless otherwise advised to by the Grants Administrator.
- Applicants should not have received other funding from The Company of Biologists in the past 12 months.
- Funding of multiple applications from the same lab or department will be limited, and it is likely that only one will be awarded each round.

Guidelines for completing the application:

- The application and all supporting documents must be completed in English.
- It is your responsibility to ensure that you meet the criteria required for a grant.
- Expenses include registration fees, travel, subsistence, accommodation and visa fees. Travel insurance costs are not to be included in the expenses.

Please upload the following documents to your application (note: all letters of support must be in English, on headed paper and signed).

- For PhD students and post-doctoral researchers: a supporting letter from your supervisor confirming your status.

- For independent group leaders and PIs: a supporting letter from your Head of Department confirming that no independent funding is available to attend meetings and courses.
- A short justification for your proposal outlining why you should be awarded the grant.
- A copy of any abstract submitted to the meeting or conference for which funding is requested.
- Curriculum Vitae.

Terms and conditions for successful applicants:

- Support from DMM and The Company of Biologists should be acknowledged in any presentations given or posters displayed at the meeting or course (logo will be supplied).
- Any unspent funds must be returned within one month of the end of the travel.
- If for any reason you do not attend the conference, workshop or course, please email dmtravelgrants@biologists.com. Please also arrange for the funds to be returned, in full.
- Successful applicants will be required to keep all of the receipts related to the visit to upload on the via the online application portal on your return.
- Successful applicants will be required to provide a 250-word meeting report and at least two bright, clear photographs.
- We may use material from your report on our website, in social media, and in other promotional materials. If you have any concerns about the use of your material, please let us know in advance.

Deadline dates, applicant handbook and FAQs

DMM will consider applications to attend virtual and online scientific meetings, conferences, workshops and training courses.

Deadline dates for applications: 2024 and 2025

- 1 November 2024 (for travel after 9 December 2024*)
- 28 February 2025 (for travel after 14 April 2025*)
- 30 May 2025 (for travel after 21 July 2025*)
- 29 August 2025 (for travel after 13 October 2025*)
- 1 October 2025 (for travel after 8 December 2025*)

Travel Grants

Short-Term Grants

Short-term grants to conduct research at IBFD's headquarters in Amsterdam are awarded to qualified students of developing countries who do not have the necessary resources and wish to become proficient in the study of international and comparative taxation, provided that their studies are supervised by a professor of tax law or tax sciences at a university. This initiative starts at the beginning of 2025. We aim to award four grants per calendar year, one grant per quarter. The award decision will be taken quarterly. Interested parties have the opportunity to apply for the research grant until the 15th of the last month of each quarter. The first deadline to apply for the grant is: Saturday 15 March 2025. The remainder of the deadlines in 2025 are: 15 June, 15 September and 15 December, respectively. All applications will be evaluated by IBFD until the end of the same month. The results will be made known to the applicants in the first week of the next quarter.

Google Conference Scholarships (Africa)

Overview

At Google, we believe a diversity of attributes, experiences, and perspectives are needed to build tools that can change the world. We also believe that everyone deserves an opportunity to pursue connections in the industry, networking with peers, and a career path in technology. To help break down the barriers that prevent underrepresented groups in technology and business from attending leading conferences, we're excited to offer Google Conference Scholarships for selected conferences in the tech industry and related fields.

Scholarship eligibility varies by region, so please review the information on the region-specific tabs on the top. Scholarships will be awarded to the most qualified persons based on application review. Every applicant will be notified of their status according to the time frames specified for the region.

Eligibility

To be eligible for a scholarship to attend an international conference, applicants must:

- Be a full-time student enrolled with a recognized university in Africa who is in need of conference travel funds.
- Have a paper accepted at a top-tier computer science conference. We prefer to support conferences in research areas where Google has a strong interest. Please visit research.google.com for a list of areas.

- Google employees are not eligible to apply for Google scholarships. Persons who are (1) residents of embargoed countries, (2) ordinarily resident in embargoed countries, or (3) otherwise prohibited by applicable export controls and sanctions programs may not apply for this scholarship.

To apply

Please submit [this form](#) by the deadline for the conference that you wish to attend. **Given the shift to virtual mode for conferences, we are currently accepting applications to cover conference fees.

Art Moves Africa Grants 2023/2024

[Art Moves Africa Grants](#): Art Moves Africa (AMA) supports mobility within the African continent by providing the costs of travel, visa and travel insurance for the duration of stay. AMA doesn't support fees, accommodations, or per-diem. Art Moves Africa (AMA) allocates 60 % of its annual travel support to artists and cultural professionals for trans-regional mobility and 40% are made accessible for travel within the same region.

Africa Travel Grants - Application Process

Who can apply?

Artists and cultural operators living and working in Africa. Which sectors?

Performing and visual arts, music, cinema, literature and cultural advocacy

What type of projects?

To establish partnerships, to participate in festivals, biennials, artist residencies, productions, touring, workshops and professional development meetings.

How to apply?

To apply for an Art Moves Africa (AMA) grant you should carefully fill in the application form and send it before the deadline, to the AMA office at [info \[at\] artmovesafrica.org](mailto:info[at]artmovesafrica.org). Only applications sent by e-mail are accepted.

Travel grants application deadlines:

- 📅 1st of January: if the travel is planned after 11 of February.
- 📅 1st of May: if the travel is planned after 12 of June
- 📅 1st of September: if the travel is planned after 27 of October

For further details, and application materials, contact: [Art Moves Africa Grants](#)

Travel Grants

PAGES African Mobility Fellowship

Past Global Changes (PAGES) announces the Inter-Africa Mobility Research Fellowship Program (African Mobility Fellowship) for African early-career scientists studying past global changes.

The next deadline for applications is 15 August 2025.

Description

The program aims to give limited support for travel and subsistence to early-career researchers from African countries (PhD students and postdocs at African institutions), who are interested in gaining experience in another African country. The final goal is to contribute to the development of collaborative research and the promotion of **paleoscience** network within Africa.

The program is intended to support costs associated with international travel and living expenses while abroad, i.e. flight (economy class), visa, costs of laboratory consumables (up to max. 10% of the total budget) and accommodation (subsistence and housing) costs for the period of the exchange, for the fellow only. Insurance will not be covered by the grant. PAGES cannot be deemed responsible if the candidate cannot travel for any reason (such as flight cancellation).

Deadline

The application deadlines are announced at the top of this page.

Applications received after the deadline will not be considered. Before submitting your application, make sure it is complete with all the requested documents.

Other requirements

After completing the fellowship, fellows must email a final report to PAGES (including a financial report, a scientific report and a short article to be published in the [Past Global Changes Magazine](#) in English. Detailed instructions will be shared with the awarded fellows.

Further information

Please email pages@pages.unibe.ch if you have any questions.

Conferences & Travel Grants for Nigerians

ASAB SPRING 2025 in LIVERPOOL -

For **BEHAVIOUR (ASAB SUMMER) 2025 in India** see

<https://www.asab.org/kolkata-conference-grants>

Conference Attendance Grants

If you have any questions about ASAB Conference Attendance Grants, please contact: Christos Ioannou (c.c.ioannou@bristol.ac.uk) [Secretary of Grants Committee](#). For standard Conference Attendance Grants (£500 or less) there are usually three application rounds per year with deadlines of **1st February** for the Spring meeting, **1st June** for the Summer meeting, and **1st October** for the Winter meeting. For applications for more than £500 (only Developing Country Applicants; see below for qualifying criteria), the deadlines are two months earlier: **1st December** in the year before the meeting for the Spring meeting, **1st April** for the Summer meeting, and **1st August** for the Winter meeting. **Applicants needing to apply for a visa ahead of travel may also apply in these earlier rounds.**

Decisions will be made shortly after the closing date

APPLICATION FORMAT

Please use the online Microsoft form [here](#) to apply for a Conference Attendance Grant. Please also complete the equality and diversity monitoring online form [here](#). The equality and diversity monitoring form asks for your name to allow us to monitor the application success rate of different groups; once the outcome has been linked to your equality and diversity data, your name will be removed from this data and will become anonymous.

Please do not forget to arrange for a referee, by the deadline, to email the Secretary of the Grants Committee in support of your application (see the online application form for further details on what this supporting statement should include). Details: <https://www.asab.org/conference-grants>

Google EMEA Travel and Conference Grants

Google EMEA Travel and Conference Grants: As part of Google's ongoing commitment to encouraging women to excel in computing and technology, Google offers EMEA Travel and Conference Grants to encourage more female computer scientists to attend and participate in research conferences.

For more information and application, see: [Google EMEA Travel and Conference Grants](#)

Travel Grants

Travel Support

Students from low and low-middle income countries as per [DAC OECD list of countries](#) can apply for travel support when accepted as participants for AfricaLics PhD Academies and Research Conferences; when funds allow.

To apply for funding, the following conditions must be met:

- Your paper must have been accepted and have been informed of a confirmed place in the event.
- Available travel support funding is prioritised for PhD students and early career researchers/ post-doctoral students based at African Universities.
- You must be a national of a low income or low-middle income country. Currently, AfricaLics is unable to provide travel support to anyone who is a national of, or studying in, a country designated as high income.
- If your paper is with a co-author(s), we can only give travel support to one presenting author.
- We do not grant travel support to applicants residing in the country where the conference is located.
- We do not support employees from Ministries and other government agencies (e.g. development banks).

If you are eligible for travel support, you must complete a travel support request form PRIOR to your travel and before the deadline provided for the event. [The travel support request form is available here](#).

If you have any questions related to travel support, please write to the AfricaLics Secretariat at secretariat@africalics.org. Please write **travel support query** in the subject heading.

Details: <https://africalics.org/travel-suppo>

Travel Grant

IAMCR offers travel grants of up to US\$ 1,500 each to members who are early-stage scholars and would otherwise be unable to attend our conferences.

Applicants must have been IAMCR members for at least one full year (i.e. it must be at least their second year as a member of the association), reside in a low or middle income country (see IAMCR's [country classification list](#)), and have an abstract accepted for full presentation at the conference. Details, including deadlines and procedures for applying, are announced early each year on the website, newsletter, mailing lists and various social media.

Please consider making a donation to the travel grant fund when you renew your membership. It's a great way to encourage emerging scholars and new perspectives within IAMCR.

Travel Grants

Spencer Foundation Conference Grants 2025

The Spencer Foundation is accepting applications for the Conference Grant Program to provide support to scholars to organize small research conferences, focused symposia, or other forms of convening are around important issues in education. This program is intended to bring together researchers, practitioners, policymakers and other important collaborators whose expertise, substantive knowledge and practice, theoretical insight, or methodological expertise can be engaged in ways that help to build upon and advance education research.

They encourage applicants to think expansively about how convening can expand the substantive work and impact of educational research on advancing racial equity.

They invite proposals that aim to grow the current scope of research on racial equity, develop new knowledge through interdisciplinary scholarly engagement, or as a way to collaborate to increase the impact of educational research. Importantly, they welcome proposals that advance conceptualizations of strength- and resiliency-based perspectives.

Funding Information

This grant program supports proposals with budgets of \$50,000 or less.

Eligibility Criteria

- ☐ Proposals to the Conference Grant program must be for small research conferences, focused symposia, or convening's that will explore critical issues in advancing racial equity in education research as specified in the Program Statement.
- ☐ Principal Investigators (PIs) and Co-PIs applying for a Conference grant must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession.

While graduate students may be part of the proposal, they may not be named the PI or Co-PI.

- ☐ The PI must be affiliated with a non-profit organization that is willing to serve as the administering organization if the grant is awarded. The Spencer Foundation does not award grants directly to individuals.

Examples include non-profit colleges, universities, school districts, and research facilities, as well as other non-profit organizations with a 501(c)(3) determination from the IRS.

- ☐ Proposals are accepted from the U.S. and internationally, however all proposals must be submitted in English and budgets must be proposed in U.S. Dollars.

For more information and application details, see; [Spencer Foundation Conference Grants](#)

Wenner Gren Foundation Grants

Wenner Gren Foundation Grants: The Wenner-Gren Foundation Grants are for anthropological research. Scholarships are open to applicants irrespective of nationality or country of residence.

The following grants are available:

- ☐ Wadsworth Short-Term Fellowships provides support for doctoral students or post-doctoral scholars who are within ten years of receiving their doctorate to enhance their research capacity in the field of anthropology.

There is no specific deadline for this program.

- ☐ Dissertation Fieldwork Grants are awarded to aid doctoral or thesis research to support basic research in anthropology. Students of all nationalities are eligible to apply.

- ☐ Hunt Postdoctoral Fellowships support the writing-up of already completed research.

Scholars with a Ph.D in hand for no more than ten years are eligible to apply.

Application: deadlines are May 1 and November 1.

For more information, please contact:

The Wenner-Gren Foundation,
470 Park Avenue South in Manhattan,
New York,
NY, USA.

Tel: + 1 212 683 5000.

Fax: +1 212 683 9151.

E-mail: inquiries@wennergren.org

For more information see: [Wenner Gren Foundation Grants](#)

Travel grants for early career researchers

The Springer Nature's communications journals (Biology, Chemistry, and Physics) introduced this travel grants for early career researchers in 2018. The programme aims to help promising researchers travel to an international scientific meeting of their choice that they would otherwise have not been able to attend due to a lack of funds. Three grants, each of €2,500, are available to promising early career scientists whose research is focused upon one of the three subject areas covered by the journals to support the costs of travelling to and participating in a conference. Applicant and travel award details

Applicant citizenship: Worldwide

Academic level: PhD, Postdoc

Travel purpose: Conference

Award: €2,500 **Membership required?:** No

Subjects: [Life Sciences](#) , [Chemistry](#) , [Physics](#)

How to apply? For further eligibility requirements and the application process, please visit: [Travel Grant website](#)

Travel Grants

Ecologists in Africa Grants for Research and Travel

The British Ecological Society (BES) is seeking applications for its Ecologists in Africa Grant Program to carry out innovative ecological research.

The grant is designed to support applications to develop their skills, experience and knowledge base as well as making connections with ecologists in the developed world.

Funding Information

The maximum value of a grant is £8,000 for research.

An additional sum up to £2,000 may be requested to fund travel to help applicants develop connections with other ecologists outside applicants usual peer group.

This must be requested at the application stage. Travel funds are available to spend time working with ecologists in developed countries where facilities and experience will help applicants on return to applicants own institution.

Successful applicants also receive two years of free BES membership and free online access to their journals.

Eligibility Criteria

Applicants should:

☐ Be a scientist and a citizen of a country in Africa or its associated islands, that is a 'low-income economy' or 'lower-middle-income economy' according to the World Bank categorisation

☐ Have at least an MSc or equivalent degree

☐ Be working for a university or research institution in Africa (including field centres, NGOs, museums etc.) that provides basic research facilities

☐ Carry out the research in a country in Africa or its associated islands

☐ The proposed work must be completed within 18 months.

How to Apply: Applicants must apply online via given website. Apply by 9th September.

AACAP Educational Outreach Program For

General Psychiatry Residents 2025

Eligible Degrees: Conferences & Travel Grants

Funding Type: Partial Funding

Eligible Courses: Child and Adolescent Psychiatry

Deadline: 07 Jun, 2025

Eligible Nationalities: Open to all nationals

1. If for any reason you do not carry out your collaborative visit or it is delayed beyond six months of the award, please email tf@biologists.com. Please also arrange for the Travelling Fellowship funds to be returned, in full.
2. Any unspent funds must be returned within one month of the end of the visit.
3. You must provide at least two bright, clear photographs and a 250-500 word summary of the results obtained from your visit within 3 months of return from the host lab.
4. You must keep all of the receipts related to your visit and send to the Charity Administrator within one month of completion of your visit. These must be scanned and uploaded via the online application portal.

Deadline dates, applicant handbook & FAQs

2024 and 2025

- 25 October 2024 (for travel after 9 December 2024*)
- 31 January 2025 (for travel after 17 March 2025*)
- 2 May 2025 (for travel after 16 June 2025*)
- 8 August 2025 (for travel after 22 September 2025*)
- 24 October 2025 (for travel after 8 December 2025*)

Travel Grants for Women 2025/2026

Women Travel Grants » Women Research Grants » How to Apply for Small Business Grants for Women

Travel Grants for Women: The objective of the NSF-AWM Women Travel Grants program is to enable women to attend research conferences in their fields, thereby providing a valuable opportunity to advance their research activities and their visibility in the research community.

Travel Grants for Women will include;

(a) The Mathematics Travel Grants provide full or partial support for travel and subsistence for a meeting or conference in the applicant's field of specialization.

A maximum of \$1,500 for domestic travel and of \$2,000 for foreign travel will be available.

(b) The Mathematics Education Research Travel grants provide full or partial support for travel and subsistence in math/math education research, for mathematicians attending a math education research conference or math education researchers attending a math conference.

A maximum of \$1,500 for domestic travel and \$2,000 for foreign travel will be available. Application Deadlines February 1, May 1 and October 1 each year.

For more information and application, see website: [AWM Travel Grants for Women](#)

Travel Grants

European Commission — Marie Curie Postdoctoral Fellowships 2025

The Marie Skłodowska-Curie Postdoctoral Fellowships provide opportunities to acquire and transfer new knowledge and to work on research in a European context or outside Europe. The scheme particularly supports the return and re-integration of researchers from outside Europe who have previously worked there. It also develops or helps to re-start the careers of individual researchers that show great potential, considering their experience. Applicants in the EU; their overseas territories; countries associated with Horizon 2020; and most developing countries are eligible for consideration. The closing date for applications is 10 September 2025.

OCIDA Conference Fund

The CIDA Conference Fund reimburses expenses, such as registration, travel, accommodation, meals, incidentals and visa fees, incurred to bring eligible delegates to conferences, workshops, seminars and related events that support CIDA's programming priorities.

Eligible events include: Conferences, Workshops, Seminars, Congresses, Forums, Summits, colloquiums

The Conference Fund will support up to 33% of total conference costs, to a maximum of \$250,000, towards the participation of eligible delegates.

Fund Applicant Eligibility: Only organizations may apply for funding. Applicant organizations must be:

- legally constituted Canadian, foreign, or international organizations (including government departments) in the public, voluntary, or private sectors;
- financially viable; and
- an organizer or one of the organizing partners of the proposed conference.

Please consult the CIDA Web site for complete guidelines and to download the proposal submission guide.

Deadline: Proposals can be sent any time during the year, but must be received at least 16 weeks before the start date of a conference.

Contact information:

Conference and Events Secretariat, Canadian Partnership Branch, Canadian International Development Agency, 200 Promenade du Portage, Gatineau, Quebec K1A 0G4, Canada.

Fax: 819-953-7122. **Email:** conferences [at] acdi-cida.gc.ca

GRANT OPPORTUNITIES AVAILABLE

The Association for the Study of the Middle East and Africa (ASMEA) is pleased to offer the following Grant opportunities to its Members in conjunction with the **Eighteenth Annual ASMEA Conference**.

November 1-3, 2025 | Washington, D.C.

ASMEA RESEARCH GRANTS

ASMEA is offering Research Grants of \$2500 to qualified students and scholars engaged in the study of the Middle East and Africa.

CONFERENCE TRAVEL GRANTS

ASMEA is offering Travel Grants up to \$750 to qualified scholars and students to present their research at the Eighteenth Annual Conference.

NORTH AFRICAN STUDIES TRAVEL GRANTS

ASMEA is pleased to offer a limited number of travel grants of up to \$750 to qualified scholars and students to present their research at the Eighteenth Annual ASMEA Conference on topics related to the study of North Africa.

GUIDELINES

- Applicants must be current members of ASMEA and engaged in the ongoing study of the Middle East or Africa.
- Applications must be accompanied by a paper proposal representing new and unpublished research from any academic discipline yet relevant to the regions.
- Successful applicants will be required to present their research in-person at the Eighteenth Annual ASMEA Conference.
- Applicants are welcome to apply for all three grants but will only be awarded one.

THE APPLICATION DEADLINE IS APRIL 30, 2025.

For more information and to apply, please visit www.asmeascholars.org. Questions? Contact ASMEA at 202.429.8860 or info@asmeascholars.org.

Travel Grants

Global Fund for Women Travel Grants

The Global Fund for Women awards grants to support operational and programmatic costs as well as small grants for organizing and participating in events to enable women's organizations to build strong movements.

We believe that this system is the most effective way to create lasting social change because it addresses the root of the problem rather than simply relieving the symptoms. Women's rights organizations that have received a grant from the Global Fund for Women in the past five years can apply between US \$ 5,000 and US \$ 15,000 to attend national, regional and international meetings and events. The purpose of travel grants is to strengthen women's rights movements, influence decisions and mobilize resources.

Eligibility Criteria for Global Fund for Women Travel Grants

Priority is given to women's rights groups that:

- Work with and / or are led by marginalized communities
- Have limited funds
- Focus on one or more of the following thematic areas:
- Economic and political empowerment
- Freedom from violence
- Sexual and reproductive health and rights
- Media and Technology
- Women's Fund

Please note :

- The funds available for these types of grants are extremely limited.
- Applicants must have received a grant from the Global Fund for Women in the last five years.
- Candidates must also have an up-to-date organizational profile.
- Forms must be submitted at least 8 weeks prior to the start date of the event.
- At some point, a group may have only one travel grant or grant to host an event that is open or under evaluation.

How to Apply for Global Fund for Women Travel Grants

- Interested groups who have received a grant within the last five years can submit an application on our online application site .

Forms must be submitted at least 8 weeks prior to the start date of the event.

Applications are Accepted All Year Round.

For more information and application details, see; [Global Fund for Women Travel Grants](#)

Selby Travelling Fellowship

Selby Travelling Fellowship: Selby Travelling Fellowship is awarded to distinguished overseas scientists to visit Australia for public lecture/seminar tours and to visit scientific centres in Australia.

Fellows are expected to increase public awareness of science and scientific issues and accordingly will be outstanding lecturers to the general lay public.

Fellowships are tenable for visits of not less than two weeks and not more than three months.

Up to \$A10,000 is available to cover economy airfares and assistance towards living expenses.

The amount offered is subject to a budget and detailed itinerary.

Fellowships are awarded and the length of tenure determined by the Council of the Academy on the recommendation of the Selby Fellowship selection committee.

For more information contact: [ac \[at\] science.org.au](mailto:ac@science.org.au)

Closing date: 30 September.

For more information and application, visit: [Selby Travelling Fellowship](#)

ASAB SPRING 2025 in LIVERPOOL -

For BEHAVIOUR (ASAB SUMMER) 2025 in India

Conference Attendance Grants

If you have any questions about ASAB Conference Attendance Grants, please contact: Christos Ioannou ([c.c.ioannou\[at\]bristol.ac.uk](mailto:c.c.ioannou@bristol.ac.uk)) [Secretary of Grants Committee](#).

For standard Conference Attendance Grants (£500 or less) there are usually three application rounds per year with deadlines of **1st February** for the Spring meeting, **1st June** for the Summer meeting, and **1st October** for the Winter meeting.

For applications for more than £500 (only Developing Country Applicants; see below for qualifying criteria), the deadlines are two months earlier: **1st December** in the year before the meeting for the Spring meeting, **1st April** for the Summer meeting, and **1st August** for the Winter meeting. **Applicants needing to apply for a visa ahead of travel may also apply in these earlier rounds.**

Decisions will be made shortly after the closing date

GrantsBoard & SeizFire: June 2025 Fellowships & Research Grants

Our GrantsBoard platform features hundreds of research, travel, and training grant opportunities for clinicians, scientists, and students worldwide. It is a go-to destination for staying updated on the latest funded programs across disciplines

AI-integrated EdTech platform : Research and Clinical Visiting Programs

Our SeizFire Platform is an AI-enabled EdTech solution that facilitates short-term onsite visiting fellowships and online traineeships in partnership with leading academic and clinical institutions.

Key features of SeizFire:

End-to-end automation: From application to certification

Integrated applicant tracking and host messaging

Secure document handling and program scheduling

Final certification and reporting

Completely free for host mentors

Boehringer Ingelheim Travel Grants

Travel Grants by Boehringer Ingelheim Fonds: Boehringer Ingelheim Travel Grants are for junior researchers pursuing experimental projects in basic biomedical research. Who Can Apply for a Travel Grant? Non-European citizens who will use the travel grant to work in Europe can apply. Travel Grant Purpose: to learn clearly-defined methods useful for your ongoing research and the work of your research group at home by visiting another laboratory, or by attending research-orientated courses which include practical training; to enable graduates from abroad and their potential PhD supervisors to evaluate the scientific and personal prerequisites before embarking on a PhD thesis. To this end, the graduate student shall pursue a short project in his/her potential PhD supervisor's laboratory for at least 4 weeks. The Travel Grant

Travel grants are awarded for short-term visits of up to 3 months.

Boehringer Ingelheim provides a flat-rate contribution which may cover the expenses for travel, lodging and course fees.

Travel Grant Timing

Applications may be submitted at any time. To allow sufficient time for the selection procedure, applications should reach the Boehringer Ingelheim Fonds at least 6 weeks before the planned date of departure.

Conditions for Travel Grants

Researchers can be awarded one travel grant during a period of 12 months.

How to apply for the Travel Grant

The application should be completed in English and by the applicant personally.

Applications accepted all year round

For more scholarship information and application,

see: [Boehringer Ingelheim Travel Grants](#)

Travel Grants

WARC Travel Grants - West African Research Center

WARC Travel Grants: The West African Research Center (WARC) in Dakar offers travel costs up to \$1500 and a stipend of \$1500 to West African scholars and graduate students.

This competition is open only to West African nationals affiliated with institutions of higher education.

Travel grant funds may be used to;

- ☐ Attend and present papers at academic conferences relevant to the applicant's field of research
- ☐ Visit libraries or archives that contain resources necessary to the applicant's current academic work
- ☐ Engage in collaborative work with colleagues at another institution
- ☐ Travel to a research site.

A complete application must include the following (one original and two copies of all materials—3 sets total):

- ☐ A WARA grant application cover sheet
- ☐ A brief (50-80 word) abstract of the activity to be funded, beginning with a clear statement of purpose
- ☐ A description (6 double-spaced pages maximum) of the applicant's research and how the proposed travel is relevant to this work. This should be presented in a language understandable to non-specialist readers
- ☐ A curriculum vitae with research and teaching record when relevant
- ☐ If attending a conference, an abstract of the paper to be read and a letter of acceptance to the conference
- ☐ If visiting another institution, an invitation from host institution
- ☐ If travel is to consult archives or other materials, a description of the collections to be consulted and their significance to the applicant's research
- ☐ For graduate students, a letter of recommendation by the professor overseeing their research
- ☐ Proof of citizenship in the form of a photocopy of the applicant's passport.

For more information and travel grants application, see; [WARC Travel Grants in Africa » Travel Grants Funding » Funding for Conferences » Academic Travel Grants](#)

Travel Support

Students from low and low-middle income countries as per [DAC OECD list of countries](#) can apply for travel support when accepted as participants for AfricaLics PhD Academies and Research Conferences; when funds allow.

To apply for funding, the following conditions must be met:

- Your paper must have been accepted and have been informed of a confirmed place in the event.
- Available travel support funding is prioritised for PhD students and early career researchers/ post-doctoral students based at African Universities.
- You must be a national of a low income or low-middle income country. Currently, AfricaLics is unable to provide travel support to anyone who is a national of, or studying in, a country designated as high income.
- If your paper is with a co-author(s), we can only give travel support to one presenting author.
- We do not grant travel support to applicants residing in the country where the conference is located.
- We do not support employees from Ministries and other government agencies (e.g. development banks).

If you are eligible for travel support, you must complete a travel support request form PRIOR to your travel and before the deadline provided for the event. [The travel support request form is available here](#).

Please note that travel support is provided as follows

- **Travel support covers return airfares only. These must be the cheapest fare and economy class tickets.** We are unable to reimburse visa costs, ground transportation, transit hotel bills or other related travel costs.
- The reimbursement procedure starts **AFTER** the conference. It is therefore NOT possible to receive cheque, cash or other forms of payment at the conference.
- We cannot refund costs larger than the amount you are granted.
- We cannot refund costs larger than the documented costs, which mean that we need original tickets and receipts **AFTER** the conference. You must scan and post back to us after the event your original tickets/receipt and boarding passes/stubs. If you do not return these, your travel support claim cannot be processed.
- The AfricaLics Secretariat can only provide travel support in terms of reimbursement of travel costs AFTER the conference:

The AfricaLics Secretariat is unable to support prepaid tickets.

History shows that the number of applicants is proportionally larger than our resources for travel support so please try to look for other sources of finance that can fully or partly finance your travel. We receive many applications and since our funds for travel support are limited, applicants **should not expect to receive 100% of their funding request**. If you have any questions related to travel support, please write to the AfricaLics Secretariat at secretariat@africalics.org. Please write **travel support query** in the subject heading. Search for:
